

## DAVIS TELLS THE STORY OF HIS MANY TROUBLES

On Trial For Shooting at Stilwell He Says  
He Did Not Intend to  
Hurt Him.

CASE GOES TO THE JURY THIS AFTERNOON

Lisbon, November 10.—(Special).—Court adjourned at 4 o'clock yesterday afternoon at permit of Judge Day to drive to Salem where he had an appointment at his home.

Prosecutor Brooks rested the state's side of the case of Ohio versus James W. Davis, of East Liverpool, just before court adjourned. A number of witnesses were examined, including several policemen who assisted in the arrest of Davis on the night on which he was charged with shooting William Stilwell. Eye witnesses saw Davis in pursuit of the fleeing Stilwell and saw the flashes from his gun, which was apparently pointed in the direction of Stilwell. The revolver, a 32 self cocking weapon was presented in evidence, together with a shoe worn by Thomas Blackmore, Jr. on the night of the shooting, in which a stray bullet had made a hole. Davis was quoted as saying to the officers immediately after the arrest: "Did I hit him? I wish I had killed the son of a bitch."

Davis went on the witness stand in his own behalf this morning, and was the only witness for the defense. In the testimony the witness said he was 34 years old, his wife 26, and Stilwell, whom he described as a ball player, ex-convict and thief, he said, was 25 to 28 years old. Davis said he had been married about 8 years, and that soon after their marriage he and his wife commenced to have trouble, each accusing the other of improper conduct. He said she had frequently come home at night when he was satisfied she had been drinking beer.

Stilwell was alleged to have been intimate with Mrs. Davis for some time, and this led up to several altercations with Davis prior to the shooting. On the night of Sept. 10 Davis said, he met Stilwell on the street and Stilwell tried to strike him with a stone tied in a handkerchief, and did succeed in striking Davis in the eye with his fist. The next day, Friday, Sept. 11, Davis bought the revolver in Steubenville to protect his home, he said, as Stilwell had been prowling about the premises at night trying to get in.

Davis said that on the night of the shooting he called to Stilwell who was coming along the street, near the place where Davis was standing, to have a talk with him, and warn him to keep away from his house. Instead of stopping to talk to Davis Stilwell started to run and Davis followed 6 to 20 feet behind, shooting merely to frighten, he said, and with no intention of either shooting or wounding Stilwell. He fired three shots, and the weapon was accidentally discharged a fourth time when Davis stumbled over a street car track.

Arguments in the case started about 10 o'clock this morning, the attorneys agreeing upon 1 on a side. Judge N. B. Billingsley, of Lisbon, and Attorney George E. Davidson, of East Liverpool represent the defendant.

For the last two and one half years Davis has been traveling salesman for an East Liverpool whiskey house, and for several years prior to that had been manager of the Armour meat house in East Liverpool.

The case went to the jury at 2 p. m.

## CONCLUDING RALLY OF SALVATIONISTS

Services Last Evening Marked the Close of a Successful Nine Days' Campaign.

The Salvation Army's nine days' campaign in this city came to a close last evening with inspiring services at the barracks and the brigade officers left today for a campaign in Alliance. Rev. Dr. David Jones was present and spoke briefly. The services were conducted by Major Bonnett.

Fifteen persons were placed on probation last night. During the season of meetings 45 conversions have been reported. The Army in this city is stronger and in better shape than ever.

## PRICE QUESTION THE GREAT ISSUE

To Be Decided at the Meeting Now  
in Progress in Pittsburg.

## OPENING OF THE SESSION

Pittsburg, November 10.—(Special).—The Pottery association convened in annual session at the Hotel Henry this morning at 11 o'clock. About 60 of the association members were present. The object of the meeting is to consider a selling price for 1904.

While the manufacturers have always devoted a considerable portion of the time at conventions to the question of prices, that particular point has never attained the prominence that will be given. The manufacturers of East Liverpool and vicinity several months ago formed what has been known as the Pottery association. The plan has worked with some degree of success, but it is said its operations have conflicted with the regulations of the United States association.

Little was accomplished at the morning session besides the appointment of several standing committees, and adjournment was taken at 1 o'clock for lunch. President W. E. Wells was interviewed, but refused to venture an opinion as to the probable result of the meeting.

## PLEA OF GUILTY BY MILO CAIN

THE RESULT IS A JAIL SENTENCE  
OF 30 DAYS.

His Offense Was Assaulting and  
Threatening to Kill Mrs.  
Bertha Sheets.

Lisbon, November 10.—(Special).—A brief session of criminal court was held before Judge Martin in the probate court room this morning at which Milo Cain was sentenced to 30 days in the county jail for assaulting and threatening to kill Mrs. Bertha Sheets in East Liverpool on Sept. 30.

Cain pleaded guilty to the charge, but told the court he was drunk and had only slapped the woman, who is a dissolute character, and who, by drinking with him, has been the means of his getting into trouble before.

Cain has been somewhat of a character in East Liverpool, and has several times been sent to the workhouse from the local courts. He said he had resolved to do better, and as he had already served 20 days in jail the court mitigated the penalty.

## Jail Sentences Finished.

Lisbon, November 10.—(Special).—William Hoskins, colored, of Wells-ville, and Reuben Wallace and Ralph Deuwell were released from the county jail today upon the expiration of their sentences. Hoskins was sent up for gambling on three successive Sundays, and the Lisbon youths were sent up for larceny.

## In Sugar Grove Oil Field.

E. H. Jennings & Co., of Pittsburg, are drilling a second test well on the farm of John Smith, Sugar Grove oil field near Empire. The Knox Oil company is drilling a test well on the Wilkinson farm in the same vicinity. The Stacy Oil company is also drilling a test well on the J. Taggart farm, located near Wilkinson's farm. These three wells will all probably be brought in some time next week, and a good well among the number is in prospect.

## MINE EXPLOSION IS INVESTIGATED

An Accident at a Salem Company's  
Mine Reported By an  
Inspector.

## NEED OF A SCHOOL CODE

One of the Important Duties of the  
Legislature Will Be to Formulate  
One—Political Complexion of the  
State Assembly.

From a Staff Correspondent.

Columbus, November 10.—Report of District Deputy James P. Davis, of Salem, of his investigation of the explosion which occurred at the Big Walnut mine at Salem, owned by the Peerless Coal company, of Cleveland, has been filed with the state mine inspector. The mine is a slope shaft 250 feet deep.

The deputy says he found the mine in a state of disorder, showing the explosion had been very violent. The doors and brattises were all blown out, but no one was fatally hurt. Some of the men were blown quite a distance, receiving painful injuries. The explosion was caused from smoke, though the mine was ventilated. The miners shoot once a day, at quitting time. From 50 to 60 cartridges, from three to five feet long, are fired almost simultaneously. "Hereafter these will be fired in time," concludes the report. After completing the investigation Deputy Davis declared the mine to be safe again, but the men feared it was not and refused to enter until assured by State Mine Inspector Biddison no danger existed.

One of the most important duties of the next general assembly will be the enactment of a school code. The educators of the state favor a small school board, the members to be elected at large or party at large and partly from wards. The first named plan appears to have the most supporters. The educators have been giving the code proposition careful and painstaking consideration and their recommendations to the legislature will undoubtedly have much weight in influencing its action on the subject. As is well known, the school laws are fearfully jumbled and caused a vast deal of confusion and trouble after the supreme court placed a ban upon special legislation.

Of the 33 members of the state senate 29 are Republicans and four Democrats. Thirteen are attorneys, five farmers, four merchants, two manufacturers, two editors, one bar keeper, one miner, one minister, one express agent, one civil engineer, one insurance agent and one retired. Hon. W. G. Harding, lieutenant governor-elect, president of the senate, is an editor. Hon. Charles C. Connell, of Lisbon, and Hon. J. C. Heinlein, of Bridgeport, who will represent the Twentieth-Twenty-second joint district in the senate, are attorneys. The single miner of the senate is Alexander Smith, of Mineral City, Tuscarawas county, a former citizen of Salineville, and a native of England, coming to this country when a young man. Later returns indicate Mr. Smith's election by 1,700, which is remarkable in face of the fact of the district usually going Democratic by 1,000 plurality. Tuscarawas county is normally Democratic, but the Republicans elected a representative there last Tuesday. Mr. Smith's popularity is said to be responsible for this. Smith made a number of speeches with Senator Hanna in the campaign.

The Northside sewer pipe works of this city, which have been idle for a long time, have been leased by the Columbus Brick Manufacturing company. The capacity is four kilns. Brick will be made.

Rev. J. H. Hutchman, of the United Presbyterian church of Zanesville, will arrive in East Liverpool today, where he will conduct evangelistic services for one week.

E. J. Owens, of the Minerva Pottery company, was in Columbus Monday. He left at midnight for Minerva and will go to East Liverpool from there this evening.

Burglars' Big Haul.  
Merrimac, Mass., November 10.—(Special).—Burglars blew the post-office safe here last night, securing \$10,000.

## HOTTENTOT REBELS MOVING ON A TOWN

Volunteers Called For to Keep 1,500  
Hostile Natives From Kenhart,  
Cape Colony.

Kenhart, Cape Colony, November 10.—(Special).—Uneasy apprehensions are being felt here as the result of the approach of 1,500 Hottentot rebels. Volunteers have been called for and every preparation is being made for the bloody engagement that is expected.

## Wildcat Oil Wells.

The Elo Oil company, of this city, which has extensive leases, proposes to start its first well near Calcutta soon. Five test wells will be drilled in as many different locations.

## BOTH LADIES BADLY INJURED

Mrs. Elliott and Mrs. Hill Suffering  
From Very Painful  
Hurts.

## WILD FLIGHT OF A HORSE

Mrs. T. J. Elliott, of Market street, and Mrs. James Hill, of Fourth street, the ladies who were injured yesterday in the runaway accident on Avondale street late yesterday afternoon, as exclusively reported in the News Review, are suffering considerably from their injuries today. Both are seriously, though not fatally hurt. Mrs. Elliott is very badly bruised and is suffering greatly from the nervous shock. Mrs. Hill sustained a very painful injury to her arm and is also suffering from the shock.

The animal, the property of Dr. Elliott, became frightened near the north end of Avondale street and began to rear and plunge. Mrs. Elliott retained a firm grip on the reins and tried to keep the vehicle from the curbstone, but did not succeed. One of the wheels struck the curb with such force that it broke, throwing the ladies to the ground with great force.

Mrs. Elliott dropped the reins and the horse dashed madly down Avondale street. Helped by the grade it soon attained a terrific rate of speed. Several vehicles going north on Avondale street, had narrow escapes from collision with the runaway. The driver of a Woodbine laundry wagon averted a collision only by expert driving. The driver disregarded the imminent danger of bodily harm and by hard work got his team beyond danger. The animal's flight was brought to a stop by colliding with a pile of lumber. The horse was found to be very badly cut and bruised and the vehicle damaged.

## A PRETTY FIGHT ON

A Lively Contest Now in Progress for  
the Toronto Postmastership.

There is a pretty fight now on for the postmastership of Toronto. M. B. Edwards, the present incumbent, was an appointee of ex-Congressman Gill, and his term expires next month. He is in the fight for re-appointment. Robert Stewart, ex-deputy county clerk, has the endorsement, it is said of Congressmen-elect Weems, and was an ardent supporter of Weems in the late congressional nomination fight.

Both gentlemen have warm supporters and are making a hustling canvass to serve as postmaster.

## Will of Mrs. Golden.

Lisbon, November 10.—(Special).—The will of the late Julia A. Golden, of Wells, has been admitted to probate and Joseph Paisley has qualified as executor of her estate under bond of \$1,400. Appraisers, John Davis, Philip Frazer, W. A. Herbert. The testatrix bequeaths to her daughters, Florence Paisley and Mary C. Davidson, each one-half of lot No. 1 in Frazer's addition to Wellsville, on which is located her residence. Numerous other bequests are made.

## Salem Divorce Cases.

Lisbon, November 10.—(Special).—Emma S. McLaughlin, of Salem, was granted a divorce yesterday afternoon from Rodney McLaughlin on grounds of wilful absence and the wife was given the custody of their five-year-old son, Dewey McLaughlin. Another Salem divorce case in which Freeman Dickinson was plaintiff against Bessie Dickinson, assigned for a hearing yesterday, was dismissed at the plaintiff's cost.

## THE PLOT OF A VILLAIN AGAINST A YOUNG GIRL

Held a Close Prisoner For Three Weeks Until  
Released Through a Detective's  
Efforts.

## STARTLING STORY OF A YOUNG STUDENT

The facts in a most sensational case have just come to light, and only the cleverest kind of work on the part of a celebrated detective prevented the carrying out of one of the most cowardly and contemptible schemes for the wrecking of a young and innocent girl's life that was ever brought to public notice. That such a plot should be concocted and so nearly carried out here in East Liverpool has shocked the entire community.

Nellie Taylor, who gave her home as Alliance, came to this city a month ago and almost immediately entered the Ohio Valley Business college for a course in stenography. She applied herself faithfully and made good progress with her studies. There was nothing about the girl, so far as her actions were concerned, to arouse suspicion except that she gave a number of addresses, which so confused the faculty that they were unable to tell where she did hail from. The first day she attended the school she stated her home was in Alliance. Later she said her parents resided at Maximo, a small town between Alliance and Canton. After that she told several parties she was from New York city and still others were informed that she hailed from Glen Falls.

Miss Taylor remained at the college for three weeks, and then disappeared as mysteriously as she had come. It now seems that the girl did not leave the city, but was held a close prisoner at the home of a notorious woman in the rear of Sixth street. A detective was employed by the parents of the Taylor girl and

came to this city some time last week. He went to work diligently and was soon rewarded by finding the girl at the house mentioned. He had some difficulty in persuading her to leave the questionable quarters, but finally succeeded and she was sent home Saturday night.

The story told by the girl and corroborated by the detective is revolting in the extreme, and shows that East Liverpool harbors within its borders some of the most inhuman and heartless wretches to be found anywhere. When the Taylor girl decided to come to this city she took counsel with a certain man in this city who in some manner had got into the good graces of the family. He volunteered to take care of her, find her a boarding house and keep a watch over her while here. She was taken to the joint on lower Sixth street, and there she remained during all the weeks that she remained in the city. She says she was well treated, but was constantly annoyed by the man, and was glad when the detective took her away.

It is stated that the proprietress of the house has left the city, but the story is not believed by those who reside in the vicinity. When the detective had completed his plans on Saturday night he went boldly to the house and demanded that the girl be given up. He took her with her trunk to a grocery on Sixth street, where the trunk remained for several hours.

Careful inquiry was made at the points mentioned by the girl as her

## THE BOND MONEY NOW IN BANK

Transaction Completed and the Funds Handed  
Over to the Sinking Fund Commission Today.

The bond money lies in the Citizens' National bank subject to the check of the proper city officials. A certified check was turned over by William McCullough to the sinking fund commission this morning and after everything was thoroughly investigated the commission accepted the money and deposited it.

The commission composed of Messrs. John J. Purinton, Thomas Plunkett, C. A. Ferguson and Dr. Calhoun, met at 10 o'clock this morning in the directors' room of the Citizens National bank together with William McCullough, his attorney, W. F. Lones, of Wellsville, and City Auditor Davidson. Mr. McCullough had the check for the \$92,925 and after Attorney Lones approved of the bonds handed over the valuable piece of paper to the president of the commission.

The money will be paid out on next Saturday. Council at its regular meeting tonight will pass an appropriation ordinance, designating where the money shall go and Auditor Davidson and Treasurer Horton will pay the great majority of the bills on the date above mentioned.

The finance committee of council held a meeting this afternoon in the office of Willis Davidson and apportioned the bond money as well as the money lying in the city treasury to the several funds. The committee as far as it was possible gave to the funds of the city enough money to run them until the first of the year.

The bond money will be divided as follows: General fund, \$16,200; street fund, \$29,500; fire fund, \$8,300; police, \$1,000; light, \$600; sanitary, \$6,100; interest \$1,600; No. 3 fire station, \$4,000; Franklin street, \$207; McKinnon ave., \$45; Pleasant street, \$159; Pennsylvania avenue, \$1,357; park fund, \$522; Bank street, \$700; Lisbon street, \$635; Avondale street, \$1,000; water works, \$18,000.

## Plants All Closed.

Toronto, November 10.—(Special).—The different sewer pipe works and fire brick which obtain their water supply from the Toronto department are all closed down this week and will remain so until the new pumps are placed in position. The short water supply is also greatly handicapping private families.

## Freeman Reported in Canton.

A report was in circulation last evening to the effect that Lawrence Freeman, the young man who is charged with having stolen \$350 from the Penn Stock exchange on Sept. 26, and who made a mysterious exit from the city, has been seen on the streets of Canton. It is not known whether the report was based on authentic information or not.

## A FINE STEREOPTICON

Purchased By St. Stephen's Church to  
Be Used in Illustrated  
Lectures.

An elegant stereopticon has been purchased by St. Stephen's church, and tomorrow evening in the parish building the children and others of the church who desire will assemble and be entertained with an illustrated lecture on the life of Christ to be delivered by the rector, Rev. Edwin Weary. He will show 52 pictures on Christ's life, and after that will show a number of miscellaneous pictures for the amusement of the young folks.

During the coming winter Rev. Mr. Weary will give a series of illustrated lectures and they promise to be highly entertaining. The stereopticon cost \$125 and was purchased with a part of the legacy given to the church by the late Isaac Knowles.

## FAMOUS DOG MORTALLY WOUNDED

Dr. Max, Known Throughout the City and Coun-  
try, Accidentally Shot by His  
Owner Today.

Mortally wounded, Dr. Max, the valuable dog owned by R. L. Edmonston, the photographer, lies at the home of its master a pitiful sight. The dog was accidentally shot by Mr. Edmonston this morning while he was out hunting with R. W. Sample on the McPherson farm, two miles north of the city.

Mr. Edmonston is grieving over the accident as he would over the death of a human being. The dog to him was his most intimate companion. He loved it and would have given everything he possesses rather than to have been the cause of the dog's terrible suffering, and what seems evident to be its subsequent death. Every man, woman and child of the city knew and loved it. In feature it was perfect and in value an estimate could hardly be placed. The owner replied when asked the worth of the dog, "I cannot tell you. I have been offered \$500 for him, but I would not have sold him for any amount. I could not part with him."

Mr. Edmonston told how the accident occurred. He had shot a quail and was looking for another one near

## ROBERT HALL'S ESTATE

Administrators Appointed Under \$150,000 Bond—Guardians for Minor Children.

Lisbon, November 10.—(Special).—The late Robert Hall, of East Liverpool, having left no will, Charles and Robert T. Hall have been appointed administrators of his estate under bond of \$150,000, with Rosa Hall, Mary Simmons and Elizabeth Herbert as sureties. Appraisers, John W. Vordrey, Murray M. Nickle and William Erianger.

Robert Hall has been appointed guardian of William G., Ralph T., Ethel and Harold Hall, aged 20, 18, 15 and 4 years, children of the late Robert Hall, under bond of \$50,000, with

Mrs. Elliott retained a firm grip on the reins and tried to keep the vehicle from the curbstone, but did not succeed. One of the wheels struck the curb with such force that it broke, throwing the ladies to the ground with great force.

Mrs. Elliott dropped the reins and the horse dashed madly down Avondale street. Helped by the grade it soon attained a terrific rate of speed. Several vehicles going north on Avondale street, had narrow escapes from collision with the runaway. The driver of a Woodbine laundry wagon averted a collision only by expert driving. The driver disregarded the imminent danger of bodily harm and by hard work got his team beyond danger. The animal's flight was brought to a stop by colliding with a pile of lumber. The horse was found to be very badly cut and bruised and the vehicle damaged.

### A PRETTY FIGHT ON

#### A Lively Contest Now in Progress for the Toronto Postmastership.

There is a pretty fight now on for the postmastership of Toronto. M. B. Edwards, the present incumbent, was an appointee of ex-Congressman Gill, and his term expires next month. He is in the fight for re-appointment. Robert Stewart, ex-deputy county clerk, has the endorsement, it is said of Congressman-elect Weems, and was an ardent supporter of Weems in the late congressional nomination fight.

Both gentlemen have warm supporters and are making a hustling canvass to serve as postmaster.

### Will of Mrs. Golden.

Lisbon, November 10.—(Special).—The will of the late Julia A. Golden, of Wells, has been admitted to probate and Joseph Paisley has qualified as executor of her estate under bond of \$1,400. Appraisers, John Davis, Philip Frazer, W. A. Herbert. The testatrix bequeaths to her daughters, Florence Paisley and Mary C. Davidson, each one-half of lot No. 1 in Frazer's addition to Wells, on which is located her residence. Numerous other bequests are made.

### Salem Divorce Cases.

Lisbon, November 10.—(Special).—Emma S. McLaughlin, of Salem, was granted a divorce yesterday afternoon from Rodney McLaughlin on grounds of wilful absence and the wife was given the custody of their five-year-old son, Dewey McLaughlin. Another Salem divorce case in which Freeman Dickinson was plaintiff against Bessie Dickinson, assigned for a hearing yesterday, was dismissed at the plaintiff's cost.

## THE PLOT OF A VILLAIN AGAINST A YOUNG GIRL

Held a Close Prisoner For Three Weeks Until  
Released Through a Detective's Efforts.

### STARTLING STORY OF A YOUNG STUDENT

The facts in a most sensational case have just come to light, and only the clearest kind of work on the part of a celebrated detective prevented the carrying out of one of the most cowardly and contemptible schemes for the wrecking of a young and innocent girl's life that was ever brought to public notice. That such a plot should be concocted and so nearly carried out here in East Liverpool has shocked the entire community.

Nellie Taylor, who gave her home as Alliance, came to this city a month ago and almost immediately entered the Ohio Valley Business college for a course in stenography. She applied herself faithfully and made good progress with her studies. There was nothing about the girl, so far as her actions were concerned, to arouse suspicion except that she gave a number of addresses, which so confused the faculty that they were unable to tell where she did hail from. The first day she attended the school she stated her home was in Alliance. Later she said her parents resided at Maximo, a small town between Alliance and Canton. After that she told several parties she was from New York city and still others were informed that she hailed from Glen Falls.

Miss Taylor remained at the college for three weeks, and then disappeared as mysteriously as she had come. It now seems that the girl did not leave the city, but was held a close prisoner at the home of a notorious woman in the rear of Sixth street. A detective was employed by the parents of the Taylor girl and

came to this city some time last week. He went to work diligently and was soon rewarded by finding the girl at the house mentioned. He had some difficulty in persuading her to leave the questionable quarters, but finally succeeded and she was sent home Saturday night.

The story told by the girl and corroborated by the detective is revolting in the extreme, and shows that East Liverpool harbors within its borders some of the most inhuman and heartless wretches to be found anywhere. When the Taylor girl decided to come to this city she took counsel with a certain man in this city who in some manner had got into the good graces of the family. He volunteered to take care of her, find her a boarding house and keep a watch over her while here. She was taken to the joint on lower Sixth street, and there she remained during all the weeks that she remained in the city. She says she was well treated, but was constantly annoyed by the man, and was glad when the detective took her away.

It is stated that the proprietress of the house has left the city, but the story is not believed by those who reside in the vicinity. When the detective had completed his plans on Saturday night he went boldly to the house and demanded that the girl be given up. He took her with her trunk to a grocery on Sixth street, where the trunk remained for several hours.

Careful inquiry was made at the points mentioned by the girl as her

## THE BOND MONEY NOW IN BANK

Transaction Completed and the Funds Handed Over to the Sinking Fund Commission Today.

The bond money lies in the Citizens' National bank subject to the check of the proper city officials. A certified check was turned over by William McCullough to the sinking fund commission this morning and after everything was thoroughly investigated the commission accepted the money and deposited it.

The commission composed of Messrs. John J. Purinton, Thomas Plunkett, C. A. Ferguson and Dr. Calhoun, met at 10 o'clock this morning in the directors' room of the Citizens National bank together with William McCullough, his attorney, W. F. Lones, of Wells-ville, and City Auditor Davidson. Mr. McCullough had the check for the \$92,925 and after Attorney Lones approved of the bonds handed over the valuable piece of paper to the president of the commission.

The money will be paid out on next Saturday. Council at its regular meeting tonight will pass an appropriation ordinance, designating where the money shall go and Auditor Davidson and Treasurer Horton will pay the great majority of the bills on the date above mentioned.

The finance committee of council held a meeting this afternoon in the office of Willis Davidson and apportioned the bond money as well as the money lying in the city treasury to the several funds. The committee as far as it was possible gave to the funds of the city enough money to run them until the first of the year.

The bond money will be divided as follows: General fund, \$16,200; street fund, \$29,500; fire fund, \$8,300; police, \$4,000; light, \$600; sanitary, \$6,100; interest \$1,600; No. 3 fire station, \$4,000; Franklin street, \$207; McKinnon ave., \$45; Pleasant street, \$159; Pennsylvania avenue, \$1,357; park fund, \$522; Bank street, \$700; Lisbon street, \$635; Avondale street, \$1,000; water works, \$18,000.

### A FINE STEREOPTICON

Purchased By St. Stephen's Church to Be Used in Illustrated Lectures.

An elegant stereopticon has been purchased by St. Stephen's church, and tomorrow evening in the parish building the children and others of the church who desire will assemble and be entertained with an illustrated lecture on the life of Christ to be delivered by the rector, Rev. Edwin Weary. He will show 52 pictures on Christ's life, and after that will show a number of miscellaneous pictures for the amusement of the young folks.

During the coming winter Rev. Mr. Weary will give a series of illustrated lectures and they promise to be highly entertaining. The stereopticon cost \$125 and was purchased with a part of the legacy given to the church by the late Isaac Knowles.

## FAMOUS DOG MORTALLY WOUNDED

Dr. Max, Known Throughout the City and County, Accidentally Shot by His Owner Today.

Mortally wounded, Dr. Max, the valuable dog owned by R. L. Edmonston, the photographer, lies at the home of its master a pitiful sight. The dog was accidentally shot by Mr. Edmonston this morning while he was out hunting with R. W. Sample on the McPherson farm, two miles north of the city.

Mr. Edmonston is grieving over the accident as he would over the death of a human being. The dog to him was his most intimate companion. He loved it and would have given everything he possesses rather than to have been the cause of the dog's terrible suffering, and what seems evident to be its subsequent death. Every man, woman and child of the city knew and loved it. In feature it was perfect and in value an estimate could hardly be placed. The owner replied when asked the worth of the dog, "I cannot tell you. I have been offered \$600 for him, but I would not have sold him for any amount. I could not part with him."

### ROBERT HALL'S ESTATE

Administrators Appointed Under \$150,000 Bond—Guardians for Minor Children.

Lisbon, November 10.—(Special).—The late Robert Hall, of East Liverpool, having left no will, Charles and Robert T. Hall have been appointed administrators of his estate under bond of \$150,000, with Rosa Hall, Mary Simmers and Elizabeth Herbert as sureties. Appraisers, John W. Vodrey, Murray M. Nickle and William Erianger.

Robert Hall has been appointed guardian of William G., Ralph T., Ethel and Harold Hall, aged 20, 18, 15 and 4 years, children of the late Robert Hall, under bond of \$50,000, with

## Among the Potteries and Allied Industries

### LARGER PLANTS IN TRENTON.

Trenton, N. J., November 10.—(Special.)—By the vacation of a portion of Klagg avenue by the city, on either side of which the Trent Tile company owns a long stretch of ground, the present plant will be extended five more acres, which will make the local works the largest in the world. It will mean double the force of the men now employed, or, in other words, upwards of 1,000. All the machinery throughout the plant will, after the new addition is built, be operated by electricity. The action of the city in vacating a portion of Klagg avenue marks the beginning of a more sympathetic co-operation between the municipality and the manufacturing interests of Trenton. With a board of trade which is practically dead, as far as the good it does the manufacturing interests, the latter have not in recent years received the attention they should. Common council has adopted a policy which has for its purpose the advancement of the commercial and manufacturing interests.

Perhaps no line of clay manufacture advanced like that of making tile. The export trade of the Trent Tile company has almost doubled in the past two years, and Trenton made products are finding their way into many of the finest buildings now under construction on the continent of Europe. Not even is the Vatican at Rome exempt, for the firm is now working on a large order of mosaic flooring which is to be installed in a new apartment at the palace of the head of the Catholic church.

Upon the completion of its new addition the company will add several new kinds of tile materials not produced in this city to its output and the character and design of the decorating department will not be surpassed anywhere in the United States. A. W. Lawshe, the secretary and treasurer of the company, said yesterday that it was the intention to start on the new addition at once unless there should come a sudden and unexpected slump in the market.

Another extensive addition to the plant of the Ceramic Art company is about to be made. An adjoining building heretofore used by the Shaw Enamel Brick company for the manufacture of enameled bricks has been purchased by Walter Lenox. It is his purpose to convert this building into

a department for the exclusive mixing and preparation of clay and other materials required in the production of high grade porcelain and belleek. The company at present is making a specialty in the manufacture of vases.

In order to prevent further violations of the child labor law in New Jersey, State Factory Inspector Ward has introduced a new procedure. Parents of children who make false affidavits are to be prosecuted. In the past many manufacturers, including potters, have been deceived by false affidavits and consequently greatly annoyed.

Some new art decorations are being introduced at the plant of the Willets Pottery company, where the finer grades of toilet sets and belleek are made. Considerable of the product of this concern is being sold in the west, where the finer grades of ware find a ready market, especially in Chicago, where there is, according to trade reports, a growing demand for bric-a-brac and novelties. Many of the experiments of the Willets have proved highly satisfactory in this particular.

### POTTERY MARKS.

W. M. G. Smith, connected with the house of Gilman, Collamore & Co., must be credited with some capital ideas that the firm carries into execution most attractively in porcelain, of both French and English manufacture, says an exchange. One of these clever notions takes the form of a water set for the bed room table, and consists of a tray, candlestick, match box, glass and water jug; all but the drinking utensil in china; the other is an individual breakfast set comprised of tray, coffee pot, cream pitcher, sugar bowl, cups, saucers, plates, etc., that are required in the service of the meal, apart from the regular table. The firm has brought out these little sets in some delightful colors and decorations, and for persons seeking beautiful, useful novelties in china, here are just the right articles, and the innovator deserves commendation for devising a conceit combining novelty, utility, convenience and beauty. Mr. Smith has also compiled a very handy little volume called "China and Pottery Marks," linen bound, and well adapted for china collectors to carry without burden to sales as reference. The text is illustrated with the marks most likely to be encountered in wares of German, Austrian, Russian, Polish, Danish, Swiss, Italian, Spanish, English and French manufactures of the last two centuries.

### LIVE REPRESENTATIVES.

Among the Chicago representatives of the crockery, glass and china industries, as well as among people engaged in other lines of trade, the advantage of being always "on the spot," or having permanent headquarters here, is frequently commented on, says a trade journal. There are very many agents now residents of this city who formerly only "made" Chicago in the course of their travels as salesmen for their companies, a few times during the year, and the uniform verdict is that the only way to completely and successfully cover the Chicago field is to live here, or at least to have headquarters here, so as to keep entirely in

touch with the trade and to meet the fierce competition which is so characteristic of this market. To get the business it is necessary to keep right after it with relentless perseverance, and the only way to achieve success is to stay right with the game. Transient visits do not enable agents to keep close to varying conditions and to follow up their customers to the best advantage. Then, it is getting to be more and more generally recognized that buyers can do as well here as farther east, and to be here to meet them at all times is a matter that is of extreme importance.

### DISTINCTIVE IMPORTATIONS.

Very unique goods may be obtained at the establishment of Mikael Samuel & Co., 41 Barclay street, New York city, in Swedish, Finnish, Russian, Norwegian and Danish dinner ware, pottery and art goods, all of which are excellent novelties for presentation pieces. From Finland are vases in tall, graceful designs with figures in relief; from Sweden some short, massive tankards of quite different effect from the German; Russia supplying some quaint tankards also, as well as some lacquer ware and porcelain with native inscriptions of appropriate meaning. Some of the Swedish pottery is reproduced from designs over a century old, the jugs employing grotesque forms of frogs, foxes and fishes' heads, with the familiar toby in man's head and with flowing beard. The goods are quite unconventional, and well adapted for holiday features, both among regular china dealers and in department stores.

### NO. 32 MET.

The regular semi-monthly meeting of local No. 32, held last night, was well attended, owing to the fact that the question of a piece price for printers' crews is still occupying attention. The transferers are opposing any change from the present conditions, as they will be placed on the same basis as other members of the crew if the piece scale is placed in operation.

### WELLSVILLE POTTERS.

The Smith-McNicol packers are again at work.

Lawrence Patterson, a glider at the Wellsville China company plant, is ill.

The force of workmen at the Patterson Bros. pottery were all off duty Monday, owing to repairs on the boilers.

Hockus Geary, sticker-up at the Wellsville China company plant, is on a hunting tour in the vicinity of Hammondsville.

The packers at the Wellsville China company, loafed Saturday and Monday, on account of the scarcity of crates and boxes for shipments.

Misses Bess Davis and Anna Grier, of the decorating department of the Wellsville China company, have returned from a few days' visit to Salineville.

Louis Zellers and Walter Swearingen, packers at the Wellsville China company, has accepted similar positions with the Dresden China company, Salineville.

### POTTERY NOTES.

Mrs. Thomas H. Neal, of Riverside, who has been spending several weeks in the West Virginia mountains for

the benefit of her health, has returned home much improved.

James Costlow, the well known printer, is now running a press at Vodrey's.

The new 61-piece dinner set of the Hall China company has found great favor with the trade.

Mrs. Margaret Herbert has returned from a brief visit to Coshocton, where her husband, Park Herbert, is employed as a presser.

John Roberts, manager of the decorating department at the Hall China company, who has been ill for a month or more, continues to improve.

H. A. Keffer, of the Sevres, returned yesterday from a trip in the interest of his firm. He booked a number of fine orders and the plant will be busier than ever in consequence.

## SENSATIONAL DISCLOSURE

Are Expected As a Result of the Investigation—Sanitary Policeman Burgess Refused to Allow the Carcass to Be Buried.

If the results of a post mortem examination, to be held probably this afternoon, bear out the suspicions of the friends and neighbors of Robert Kelley, the people of the East End will be treated to one of the biggest sensations in years. Competent persons are waiting the return of Mr. Kelley to the city to hold a post mortem examination on the carcass of a cow, the property of Mr. Kelley, which died Sunday afternoon. It is expected that they will obtain conclusive proof that the animal came to its death through the administration of some deadly poison, by persons presumably unknown.

The death of the cow, which occurred Sunday afternoon at 3 o'clock, was attended by unusual circumstances and at once aroused suspicion. The animal had been in usual health until a few hours prior to its death and the conclusion reached by some that it had foundered is not borne out by the facts. An investigation proved that the barrel of chop had not been touched, that the animal had had nothing to eat but the usual quantity of hay and only the usual amount of water to drink. The animal had stood in its stall as usual.

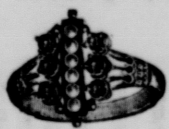

Mr. Kelley, who is employed at the sewer pipe works, left the city Saturday afternoon and had not returned at noon. While he is a very peaceable and highly respected citizen, it is known that he has some bitter enemies, who, it is stated, would go almost any length to wreck vengeance on him.

So strong are the evidences that a crime had been intended that Sanitary Policeman Burgess, who visited the Kelly home in his official capacity, refused to allow the carcass to be buried.

until Mr. Kelley has had the opportunity of ordering the investigation. If Mr. Kelley shares the suspicions of his friends, the examination will be promptly made. The stomach of the animal will be given a thorough test for the presence of any poisonous substance.

It is the belief of some of Mr. Kelley's friends that poison was given the cow not only to cause him a monetary loss, but to cause his own death or that of some member of his family and the greatest of indignation is being expressed at such a dastardly act. If suspicion points to any certain party no word as to who is suspected could be learned. More and interesting developments are expected to follow the post mortem.

NEW PLOT WILL NOT  
BE OFFERED TO COUNCIL

Lots of the Midway Company's Second Addition Will Be Sold as Parcels of Land.

Walter C. Supplee, of the Midway Land company, has just received from Engineer George the blue print of the tract of land known as the Midway company's second addition, which has just been subdivided into 30 building lots. Contrary to the usual custom, the plot will not be offered to the city council for acceptance and instead the lots will be sold as parcels of land, each one being bounded and described instead of a designation by number. The two new streets, which intersect the addition, will be dedicated to the use of the purchasers of the lots. Many advantages accrue to the purchasers in this way.

The principal thoroughfare in the new addition will be known as Midway avenue. It commences at Clay street on the east and extends north and south, with Pennsylvania avenue and the lands of Hill & Brookes on the

west. The other thoroughfares will likely be a continuation of State street, which it joins on the east. A space of 82½ feet has been reserved and it is expected that the same amount will be reserved from the land south, owned by the Thompson Pottery company.

## Social Session Tonight.

Pan American court, Tribe of Ben Hur, will give another one of its delightful social sessions tonight at P. H. C. hall and there will be a large turnout of the members and their friends. The affair has been planned for several weeks and the committees in charge have had ample time to make the necessary preparations. An unusually interesting literary and musical program, including numbers by well known and popular local performers has been arranged, and will be greatly enjoyed. An oyster supper will be another enjoyable feature of the evening.

## Will Return Home.

Clifford Mercer, son of Mrs. Maggie Mercer, of Railroad street, who has been in the south and west for the past two years for the benefit of his health, has written that he will return to this city next week and make another effort to endure the climate. Mr. Mercer spent most of the time at Las Vegas, moving recently to Los Angeles. The climate in the latter city did not agree with him and he concluded to return home. It will be remembered that Mr. Mercer was here last winter to attend the funeral of his brother, the late Winnie Mercer.

## Col. Dixon at Work.

Colonel Samuel Dixon had on his working clothes this morning helping to lay the flag stone paving at his paternal home at the corner of Needham avenue and St. George street. It is not often that the colonel indulges in manual labor but when he does he goes at it with a vim. The stone is the same as that used by quite a number of Mr. Dixon's neighbors and makes an attractive and substantial walk.

## EAST END AFFAIRS.

Attorney J. E. Davis was a visitor to Calcutta yesterday afternoon.

E. A. Smith left this morning for Marietta and other down river points. Buckeye Castle, Knights of the Golden Eagle, will hold an important meeting Friday evening.

Squire L. W. Carman has received word from his son Earl, that he has arrived safely at Los Angeles, Cal.

Squire Alfred Moore, of St. Clair township, accompanied by his wife, was an East End visitor yesterday afternoon.

Mrs. John Stamm, of Ohio avenue, left yesterday for Mechanistown, where she will spend a week or ten days with relatives.

## Climatic Cures.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. until Mr. Kelley has had the opportunity of ordering the investigation. If Mr. Kelley shares the suspicions of his friends, the examination will be promptly made. The stomach of the animal will be given a thorough test for the presence of any poisonous substance.

It is the belief of some of Mr. Kelley's friends that poison was given the cow not only to cause him a monetary loss, but to cause his own death or that of some member of his family and the greatest of indignation is being expressed at such a dastardly act. If suspicion points to any certain party no word as to who is suspected could be learned. More and interesting developments are expected to follow the post mortem.

NEW PLOT WILL NOT  
BE OFFERED TO COUNCIL

Lots of the Midway Company's Second Addition Will Be Sold as  
Parcels of Land.

Walter C. Supplee, of the Midway Land company, has just received from Engineer George the blue print of the tract of land known as the Midway company's second addition, which has just been subdivided into 30 building lots. Contrary to the usual custom the plot will not be offered to the city council for acceptance and instead the lots will be sold as parcels of land, each one being bounded and described instead of a designation by number. The two new streets, which intersect the addition, will be dedicated to the use of the purchasers of the lots. Many advantages accrue to the purchasers in this way.

The principal thoroughfare in the new addition will be known as Midway avenue. It commences at Clay street on the east and extends north and south, with Pennsylvania avenue and the lands of Hill & Brookes on the

west. The other thoroughfares will likely be a continuation of State street, which it joins on the east. A space of 82½ feet has been reserved and it is expected that the same amount will be reserved from the land south, owned by the Thompson Pottery company.

## Social Session Tonight.

Pan American court, Tribe of Ben Hur, will give another one of its delightful social sessions tonight at P. H. C. hall and there will be a large turnout of the members and their friends. The affair has been planned for several weeks and the committees in charge have had ample time to make the necessary preparations. An unusually interesting literary and musical program, including numbers by well known and popular local performers has been arranged, and will be greatly enjoyed. An oyster supper will be another enjoyable feature of the evening.

## Will Return Home.

Clifford Mercer, son of Mrs. Maggie Mercer, of Railroad street, who has been in the south and west for the past two years for the benefit of his health, has written that he will return to this city next week and make another effort to endure the climate. Mr. Mercer spent most of the time at Las Vegas, moving recently to Los Angeles. The climate in the latter city did not agree with him and he concluded to return home. It will be remembered that Mr. Mercer was here last winter to attend the funeral of his brother, the late Winnie Mercer.

## Col. Dixon at Work.

Colonel Samuel Dixon had on his working clothes this morning helping to lay the flag stone paving at his palatial home at the corner of Needham avenue and St. George street. It is not often that the colonel indulges in manual labor but when he does he goes at it with a vim. The stone is the same as that used by quite a number of Mr. Dixon's neighbors and makes an attractive and substantial walk.

## George Orr Dangerously Ill.

George W. Orr, formerly a well known carpenter, but who has lately lived on his farm about half a mile south of Calcutta, is reported to be in a critical condition, the result of a stroke of paralysis, sustained a short time ago. Mr. Orr is well known over the entire township and his many friends will regret to hear of his illness.

## EAST END AFFAIRS.

Attorney J. E. Davis was a visitor to Calcutta yesterday afternoon. E. A. Smith left this morning for Marietta and other down river points. Buckeye Castle, Knights of the Golden Eagle, will hold an important meeting Friday evening.

'Squire L. W. Carman has received word from his son Earl, that he has arrived safely at Los Angeles, Cal.

'Squire Alfred Moore, of St. Clair township, accompanied by his wife, was an East End visitor yesterday afternoon.

Mrs. John Stamm, of Ohio avenue, left yesterday for Mechanicstown, where she will spend a week or ten days with relatives.

Beware of Ointments for Catarrh  
that Contains Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c per bottle. Hall's Family Pills are the best.

## Climatic Cures.

The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles, 25c; regular size, 75c. At all druggists.

Mr. Edward Hawley, Foreman of the Albert Pack Lumber Co., Cleveland, O.

To Whom It May Concern:  
I have been a sufferer for years from dyspepsia and indigestion. I got nervous and weak and ran down in flesh and was unable to attend to my work at times. I would suffer from gas in the stomach until I thought every moment was my last. I could not draw a full breath, everything I ate would distress me, my stomach would get sour and ferment. Had a pressure in my chest. I would get drowsy, have chills and sweat and many symptoms I cannot describe. I was advised to try Vetter's Dyspepsia Remedy, and I am thankful I did, for it cured me entirely. I can eat anything now without having any distress or troubles I had before using the Remedy. I give this statement for the benefit of other sufferers.

Under the law passed by the last  
congress alien anarchists are not en-  
titled to admission to the United  
States. Whenever one of them gains  
entry and is discovered it becomes the  
duty of the immigration officials to de-  
port him. Some months ago an Eng-  
lish anarchist, John Turner, entered  
the country. In due course he was ar-  
rested, given a hearing before a board  
of inquiry, and ordered deported by  
Secretary Cortelyou. He brought suit  
in the United States court to test the  
constitutionality of the law, and now  
Judge Lacombe has rendered a decision  
adverse to him and sustaining the  
law at all points. The case will prob-  
ably go to the supreme court; for an-  
archists, although they profess to  
desire the overthrow of all laws, are  
as ready as anybody else to invoke the  
law's aid when their interests or their  
liberties are threatened.

Senator Hanna and President Roose-

exactly.

## IGNORANCE NOT A VALID EXCUSE

Legal Opinion That the Arrested  
Milkmen Can't Escape  
Fines.

## THE LAW IS VERY STRICT

And How Its Penalties Are to Be  
Evaded, Justice Rose Can't See.  
Public Sympathy Is With the Milk  
Dealers.

Intense interest centers on the milk  
cases to be tried before Justice J. N.  
Rose on Wednesday, November 18.

The four defendants, Adam Rudibaugh,  
Austin Stewart, George F. Swearingen  
and E. M. Gonzales, are preparing to  
fight the case to a standstill, and as  
is usual in such cases the masses are  
hoping that they will be victorious,  
public sentiment nearly always being  
against foreign detectives who bring  
charges against local people.

However, according to 'Squire Rose  
and several others with whom he has  
consulted, all basing their conclusions  
on the provision of the state laws as  
they understand them, the defendants  
have not a ghost of a show. The jus-  
tice, who is noted for his conserva-  
tiveness and fairness, after much deep  
thought is forced to believe that the  
milk dealers are up against a propo-  
sition that they cannot down. It will  
be their attempt, it is thought, to prove  
that they had no knowledge of their  
milk being adulterated, and taking the  
general rule applied by law as a basis  
think they will become victors in the  
suit. Nobody believes the dairymen  
were intentionally guilty.

Justice Rose construes the provi-  
sions to mean that ignorance of the  
adulteration will not excuse any man.  
A supreme court decision says: "It  
is easy to see that to require an af-  
firmative proof on the part of the  
state, that the accused had actual  
knowledge of the adulteration, would  
put an end to many meritorious pro-  
secutions." Further the decision says:  
"It is clear that the act of March 4,  
1884, was enacted solely to protect the  
people of the state against the use of  
impure and adulterated food, and that  
no one would violate the law by sell-  
ing any food, except as such."

"It is also thought that the defend-  
ants will put up a plea of unfair  
treatment," says the justice, "but they  
will be shown up on that point, be-  
cause the men who preferred the  
charges against them are ready to  
prove that they did not take unfair  
advantage, in all cases requiring the  
milk men to shake well their product  
before turning any of it over for in-  
spection. In every case they were ap-  
prised of what was wanted of the  
milk. The reason that the dairymen  
were required to shake their milk was  
because milk taken from the top of a  
vessel will be minus of a certain  
portion of the fat which has settled  
to the bottom. By shaking well it is  
mixed and the dealer is given a fair  
show."

The following section under the pure  
food laws also had much to do with  
the justice in forming his conclusion:  
"Whoever by himself or by his servant  
or by his agent or as the servant or  
agent of any other person, sells, ex-  
changes or delivers, or has in his cus-  
tody or possession with intent to sell

Under the law passed by the last  
congress alien anarchists are not en-  
titled to admission to the United  
States. Whenever one of them gains  
entry and is discovered it becomes the  
duty of the immigration officials to de-  
port him. Some months ago an Eng-  
lish anarchist, John Turner, entered  
the country. In due course he was ar-  
rested, given a hearing before a board  
of inquiry, and ordered deported by  
Secretary Cortelyou. He brought suit  
in the United States court to test the  
constitutionality of the law, and now  
Judge Lacombe has rendered a decision  
adverse to him and sustaining the  
law at all points. The case will prob-  
ably go to the supreme court; for  
anarchists, although they profess to  
desire the overthrow of all laws, are  
as ready as anybody else to invoke the  
law's aid when their interests or their  
liberties are threatened.

Senator Hanna and President Roose-  
velt consulted together yesterday for  
the party's good. The party's good re-  
quires that the senator remain at the  
head of the Republican national com-  
mittee. That position requires a man  
with a level head and keen executive  
ability, and Senator Hanna fills the  
bill exactly.

Spanish government officials are  
said to regret the result of the war  
with the United States, for the reason  
that the giving up of the Philippines

disagreeably persistent politicians.  
They might try the American plan and  
send them to oblivion.

Speaking of the fact that the young

and are managing the insignificant  
men that go with them.

### OBITUARY

Mrs. John DeVaney.

Salineville, November 10.—(Spe-  
cial).—Word reached here last even-  
ing of the death of Mrs. John De-  
Vaney, of Allegheny, Pa. Mrs. De-  
Vaney lived here a number of years  
before her husband moved from Sa-  
lineville to Allegheny about 10 years  
ago. She was popular and enjoyed the  
confidence of a wide circle of friends.  
The funeral will be held Thursday at  
her home.

John M. Azdell.

John M. Azdell, a native of this  
county who had resided in Missouri,  
18 years, died at his home in Mexico,  
Missouri, Friday. Mr. Azdell was a  
brother of Mrs. James Lowary, of  
Wellsville, and Harvey Azdell, of R.  
F. D. No. 1.

Aaron Hawley.

Salem, Nov. 10.—Aaron Hawley,  
aged about 91 years, and unmarried,  
died Sunday morning from the effects  
of a stroke of paralysis. He was  
born in Pennsylvania but spent most  
of his life in this vicinity, residing for  
many years at Guilford and Winona.

Rev. C. L. Bowland.

Rev. C. L. Bowland, M. E. pastor at  
Windsor, O., well known in this coun-  
ty, died at his home Saturday after a  
short illness. The funeral will be  
held tomorrow at Alliance. He was  
a son of W. N. Bowland of Echo Dell,  
and a successful young minister.

## GOES TO CANADA TO CONDUCT MISSION

Rev. Edwin Weary Will Labor for  
Eight Days in a City in  
Ontario.

Rev. Edwin Weary, rector of St.  
Stephen's church, has been honored  
with a call to conduct a parochial mis-  
sion lasting eight days at St. Paul's  
church, Thorold, Toronto. Mr. Weary  
has accepted the invitation and will  
leave for the Canadian city early  
next Monday morning.

While away Mr. Weary will conduct  
four services each day and on Sun-  
day, November 22, will address a mass  
meeting in the opera house at Thor-  
old, where will be assembled people  
from every Christian denomination in  
the city.

Rev. H. E. Molony of Lorain, well  
known in the city, will have charge of  
the services at St. Stephen's church  
during the absence of Rev. Mr. Weary.  
The latter will return in time to con-  
duct the special Thanksgiving servi-  
ces.

### FRIENDS AND VISITORS

John Peake is about to go into the  
grocery business in Pittsburgh.

George Yonz, of the West End, is  
confined to his home by illness.

George Tatgenhorst and Captain  
Wood Pusey are hunting in the coun-  
try today.

H. J. Abrams and wife have return-  
ed from a visit to relatives in Lincoln  
Nebraska.

L. S. Ramsay, a popular clerk, has  
accepted a position with the Hub  
Clothing company.

Thomas Preston, of Avondale street,  
is confined to his home suffering from  
a threatened attack of fever.

S. M. Arbuckle has returned to his  
home in this city after a visit with  
relatives in Burgettstown, Pa.

W. S. Wallace, of Coshocton, was in  
the city yesterday on business. He  
returned to his home this morning.

Lytle Wyant and John Ecker left  
this morning for Carroll county, where  
they will spend three days on a hunt-  
ing expedition.

William Weaver went to Lisbon this  
morning, where he will be a witness  
in the Davis case, now on trial in com-  
mon pleas court.

George Hill has purchased a lot  
from William Hall, Sr., on the Lisbon  
road and has commenced the construc-  
tion of a dwelling house on the site.

Friends in this city have received  
word of the serious illness of Daniel  
McElravy, formerly a resident of East  
Liverpool. He is suffering with stom-  
ach trouble.

Mr. and Mrs. M. R. Douglass and  
Miss Mollie Johnson left today for  
Steubenville, where this evening they  
will attend the Sauters-Maxwell nup-  
tials. Miss Johnson is to be maid of  
honor at the ceremony.

## IGNORANCE NOT A VALID EXCUSE

Legal Opinion That the Arrested  
Milkmen Can't Escape  
Fines.

## THE LAW IS VERY STRICT

And How Its Penalties Are to Be  
Evaded, Justice Rose Can't See.  
Public Sympathy Is With the Milk  
Dealers.

Intense interest centers on the milk  
cases to be tried before Justice J. N.  
Rose on Wednesday, November 18.  
The four defendants, Adam Rudibaugh,  
Austin Stewart, George F. Swearingen  
and E. M. Gonzales, are preparing to  
fight the case to a standstill, and as  
is usual in such cases the masses are  
hoping that they will be victorious,  
public sentiment nearly always being  
against foreign detectives who bring  
charges against local people.

However, according to Squire Rose  
and several others with whom he has  
consulted, all basing their conclusions  
on the provision of the state laws as  
they understand them, the defendants  
have not a ghost of a show. The jus-  
tice, who is noted for his conserva-  
tiveness and fairness, after much deep  
thought is forced to believe that the  
milk dealers are up against a propo-  
sition that they cannot down. It will  
be their attempt, it is thought, to prove  
that they had no knowledge of their  
milk being adulterated, and taking the  
general rule applied by law as a basis  
think they will become victors in the  
suit. Nobody believes the dairymen  
were intentionally guilty.

Justice Rose construes the provi-  
sions to mean that ignorance of the  
adulteration will not excuse any man.  
A supreme court decision says: "It  
is easy to see that to require an af-  
firmative proof on the part of the  
state, that the accused had actual  
knowledge of the adulteration, would  
put an end to many meritorious pro-  
secutions." Further the decision says:  
"It is clear that the act of March 4,  
1884, was enacted solely to protect the  
people of the state against the use of  
impure and adulterated food, and that  
no one would violate the law by sell-  
ing any food, except as such."

"It is also thought that the defend-  
ants will put up a plea of unfair  
treatment," says the justice, "but they  
will be shown up on that point, be-  
cause the men who preferred the  
charges against them are ready to  
prove that they did not take unfair  
advantage, in all cases requiring the  
milk men to shake well their product  
before turning any of it over for in-  
spection. In every case they were ap-  
prised of what was wanted of the  
milk. The reason that the dairymen  
were required to shake their milk was  
because milk taken from the top of a  
vessel will be minus of a certain  
portion of the fat which has settled  
to the bottom. By shaking well it is  
mixed and the dealer is given a fair  
show."

The following section under the pure  
food laws also had much to do with  
the justice in forming his conclusion:  
"Whoever by himself or by his servant  
or by his agent or as the servant or  
agent of any other person, sells, ex-  
changes or delivers, or has in his cus-  
tody or possession with intent to sell  
or exchange, or exposes or offers for  
sale or exchange, adulterated milk or  
milk to which water or any foreign  
substance has been added, or milk  
from sick or diseased cows, shall for

a first offense be punished by a fine  
of not less than \$50, nor more than  
\$200, for a second offense, by fine not  
less than \$100 nor more than \$300,  
etc."

Under the law passed by the last congress alien anarchists are not entitled to admission to the United States. Whenever one of them gains entry and is discovered it becomes the duty of the immigration officials to deport him. Some months ago an English anarchist, John Turner, entered the country. In due course he was arrested, given a hearing before a board of inquiry, and ordered deported by Secretary Cortelyou. He brought suit in the United States court to test the constitutionality of the law, and now Judge Lacombe has rendered a decision adverse to him and sustaining the law at all points. The case will probably go to the supreme court; for anarchists, although they profess to desire the overthrow of all laws, are as ready as anybody else to invoke the law's aid when their interests or their liberties are threatened.

Senator Hanna and President Roosevelt consulted together yesterday for the party's good. The party's good requires that the senator remain at the head of the Republican national committee. That position requires a man with a level head and keen executive ability, and Senator Hanna fills the bill exactly.

Spanish government officials are said to regret the result of the war with the United States, for the reason that the giving up of the Philippines and Cuba leaves them nowhere to send disagreeable persistent politicians. They might try the American plan and send them to oblivion.

## THE SURPRISE CLOTHING HOUSE.

## IGNORANCE NOT A VALID EXCUSE

Legal Opinion That the Arrested Milkmen Can't Escape Fines.

## THE LAW IS VERY STRICT

And How Its Penalties Are to Be Evaded, Justice Rose Can't See. Public Sympathy Is With the Milk Dealers.

Intense interest centers on the milk cases to be tried before Justice J. N. Rose on Wednesday, November 18. The four defendants, Adam Rudibaugh, Austin Stewart, George F. Swearingen and E. M. Gonzales, are preparing to fight the case to a standstill, and as is usual in such cases the masses are hoping that they will be victorious, public sentiment nearly always being against foreign detectives who bring charges against local people.

However, according to 'Squire Rose and several others with whom he has consulted, all basing their conclusions on the provision of the state laws as they understand them, the defendants have not a ghost of a show. The justice, who is noted for his conservatism and fairness, after much deep thought is forced to believe that the milk dealers are up against a proposition that they cannot down. It will be their attempt, it is thought, to prove that they had no knowledge of their milk being adulterated, and taking the general rule applied by law as a basis think they will become victors in the suit. Nobody believes the dairymen were intentionally guilty.

Justice Rose construes the provisions to mean that ignorance of the adulteration will not excuse any man. A supreme court decision says: "It is easy to see that to require an affirmative proof on the part of the state, that the 'accused had actual knowledge of the adulteration, would put an end to many meritorious prosecutions." Further the decision says: "It is clear that the act of March 4, 1884, was enacted solely to protect the people of the state against the use of impure and adulterated food, and that no one would violate the law by selling any food, except as such."

"It is also thought that the defendants will put up a plea of unfair treatment," says the justice, "but they will be shown up on that point, because the men who preferred the charges against them are ready to prove that they did not take unfair advantage, in all cases requiring the milk men to shake well their product before turning any of it over for inspection. In every case they were apprised of what was wanted of the milk. The reason that the dairymen were required to shake their milk was because milk taken from the top of a vessel will be minus of a certain portion of the fat which has settled to the bottom. By shaking well it is mixed and the dealer is given a fair show."

The following section under the pure food laws also had much to do with the justice in forming his conclusion: "Whoever by himself or by his servant or by his agent or as the servant or agent of any other person, sells, exchanges or delivers, or has in his custody or possession with intent to sell or exchange, or exposes or offers for sale or exchange, adulterated milk or milk to which water or any foreign substance has been added, or milk from sick or diseased cows, shall for

a first offense be punished by a fine of not less than \$50, nor more than \$200, for a second offense, by fine not less than \$100 nor more than \$300, etc."

## WELLSVILLE

A UTAH RESIDENT  
ON THE MORMONS

Says the Saints Are Misrepresented  
And Desire Only to Be  
Let Alone.

Ross Rex, of Salt Lake City, Utah, is the guest of his brother, Dr. Park Rex, in Wellsville. Mr. Rex is a member of the famous Fifty-second Ohio Volunteer Infantry association, the regiment in the civil war known as the "blood lappers," who fought fiercely at times to avenge the death of their famous fighting colonel, Alex McCook, of Steubenville.

Mr. Rex was alongside of ex-Sheriff T. H. Montgomery, of Toronto, when that gentleman, known also for his bravery and fighting qualities, received a wound which caused him the loss of an arm. It happened in a brief engagement after the battle of Kennesaw Mountain, when they were ordered to advance against the enemy and a sharp conflict ensued.

In speaking of the fight against U. S. Senator Smoot, of Utah, Mr. Rex says that Smoot cannot be ousted. He is satisfactory to the majority of the people of Utah. He is progressive, a man of liberal ideas and an honor to his state. The Mormons and the Gentiles so called mix socially and in business matters; there is no particular clash against each other except along religious lines. He says the Mormons are much misrepresented, and that stories of Utah's past are largely circulated in the east much to the state's detriment. There is a different class of people populating the state since those dark and bloody times, and they are just as enlightened and progressive residents and more so than are found in many of the eastern states. If errors, he states, would pay more attention to the bigwigs of the east, and let Utah finally solve the problem of polygamy itself, they would not retard the growth and enlightenment that is surely coming.

Speaking of improvements in the beautiful city of Salt Lake he says 45 business houses and residences were erected last year, and that the growth and improvement is still progressing quite steadily. U. S. Senator William Clark, of Montana, is building a railway from Salt Lake to Los Angeles. Senator Moffat is also constructing another line from Denver to Salt Lake. The principal industries of the state are mining and wool growing. In the former \$80,000 of gold bullion is put on the market daily, and there is still big growing developments in

mining all over the state. In the latter, the increase is wonderful. The shipments of wool nearly all come east, but there is a steady increase of manufacturing building up in the state that consumes quite a share of the clips. Mr. Rex is an enthusiastic admirer of the state. All they want is to be let alone, and let the general public watch them thrive and grow.

## THE OLD RELIABLE

Absolutely Pure  
THERE IS NO SUBSTITUTE

peculiar feature of the shooting

PECULIAR FEATURE  
OF THE SHOOTING

Detective Moore And His Assailant  
Each Used the Same Sort  
of Weapon.

A peculiar feature of the fatal shooting affray between Detective Joseph Moore and the dead negro Ruddis was the fact that both used the same kind of revolver. Iver Johnson, of 38-caliber, and hammerless, says Will Moore, son of the detective. Moore and the negro exchanged three shots apiece, says Agent Grimm, of the Beaver station. The latter stood motionless fearful to move while the guns flashed their deadly fire, for fear of being hit in the rapid exchange of shots.

The ball extracted from Moore is 38-caliber and of the same make as the revolver did the fatal work. A post-mortem was held on the body of the negro yesterday, but the bullet which caused his death was not found, and will not be unless wanted by the authorities.

The post mortem developed that the negro was fatally wounded in the left side and died from internal hemorrhages.

## ON MORMONISM

An Interesting Lecture to a Crowded  
House Delivered By  
Mrs. Devore.

Mrs. Mary C. Devore was greeted at the United Presbyterian church last night with an audience that completely filled that edifice. She is an educated lady and a pleasing speaker.

The pulpit was decorated with an old, tattered and torn U. S. flag, almost in shreds, that was placed over her school house door in Utah. She said four years ago she had been sent among the Mormons by the National Presbyterian board of home missions. She organized a school, having about 25 scholars. During the McKinley campaign of 1900 she placed the flag above the school house door. An old Mormon in passing told her not to put up the dirty, old flag. She said it was the flag of her country. The argument became heated and a mob gathered and tore it down and into shreds. This is the flag she exhibited last night, which she secured and patched up for exhibition.

The Mormons say the flag is one of oppression. They threatened to shoot her for daring to raise it above the school house door.

Mormons, she says, take an oath of fearful and hair-raising character to do all they can against it. They also re-take the oath at stated periods. Smoot, United States senator from Utah, has often taken the oath, she

alleges, and therefore is not entitled to a seat in the United States senate. She avers that polygamy is still practiced. It is hard to bring offenders to justice, as courts are all in the hands of Mormons.

## Schaffer Sells Out.

Harvey Schaffer has sold his interest in the fine new business block and property located on Main street, near Eighteenth, to Clayton Aughinbaugh. The consideration was between \$3,200 and \$3,500. The block is almost complete, and will make a fine addition to the business houses now located near Eighteenth street.

## Fire Department Entertainment.

Chief A. W. Phillips, of the Wellsville fire department, is arranging with H. R. Johnson, of Chicago, for an entertainment. A picture of the fire department, including the West Side company, will be taken in action tomorrow. The funds raised from the entertainment will be used in purchasing paraphernalia for the department.

## This Hen a High Flyer.

Daniel McBane, of Glasgow, was in town yesterday afternoon and says he observed a neighboring farmer trying to rescue a hen and her brood of little chicks from the top of a big straw stack in a field when the hen had raised her little family. The hen is of elevated stock, and must be more than thoroughbred.

## Detective Moore Improving.

William Moore, son of Detective Joseph Moore, returned to Canton last evening. He is employed in the sheet mill at the Stark Rolling Mill company's works. Elmer Moore, of Wellsville, visited his father at New Brighton yesterday afternoon, and says he will be able to leave the hospital shortly.

## Boiler By Express.

A big boiler from a Pittsburg firm arrived by express from that city last night on the C. & P. in a special car, and the work of putting it in place will begin immediately at the power house of the water works department. The express charges, however, will be about as large as the boiler.

## Work on the Streets.

Street Commissioner A. C. Culp and force are doing considerable grading on Lincoln and Maple avenues, near Kelly avenue. There is still some paving to be finished by Contractor Rinehart on Clark avenue, near Kelly. The paved streets in general are badly in need of a thorough cleaning up.

## Twelve Applicants Examined.

The board of public safety examined four more applicants for police positions last night, making 12 now altogether. They adjourned to meet next Monday night, and in the mean time a number of new applications will probably be filed.

QUESTION OF PAVING  
ON FIFTH STREET

Matter Will Be Considered at a Special Meeting of Council  
Tonight.

A special meeting of the Chester council has been arranged for this evening, and it is understood the question of the paving of Fifth street will be up for consideration. There is no doubt that the council will act favorably upon the petition.

It is announced that the people there are very much in favor of the improvement, and that fully 95 per cent of the foot frontage has been signed up. There is no money in the treasury to pay for paving, and it has not yet been decided what course to pursue in raising the amount. There are two ways open to the interested ones—either a call for an election to vote on a bond issue, or allow the property owners who are benefited by the improvement to advance the money and carry the debt until the assessments are all collected.

There will be no opposition to the improvement on the part of the citizens, as it is considered one of the crying needs of the town. When the new Presbyterian church at Fifth street and Indiana avenue is completed the former thoroughfare will be one of the most prominent in the city. The new residence being erected by James Murray is also taken into consideration, and since it is to be one of the most valuable properties in the town, it will be absolutely necessary to have some convenient and clean way of getting to and from the premises.

## KEEPING THE DRILL GOING

Operations Started on the Hadley  
Farm Well, Near Chester.

Drilling was started on the Hadley farm, near Chester, this morning by John Webster and his associates. The work was delayed for several days after the apparatus had been placed in position. Mr. Webster is giving his personal attention to the work and will assist Driller Height until the drilling has developed something tangible. Mr. Webster and the men associated with him in the development of the territory have always been confident that there is something to be found in that vicinity on the leases taken up in that vicinity, and the

present test will be a thorough one.

Good progress is being made at the Geer well, south of Chester, and if nothing happens to stop the work the sand will be struck Thursday morning. Those interested are confident of making a rich find, and the coming in of the well is eagerly awaited.

## ANOTHER FOOTBALL TEAM

Members Have Begun Faithful Practice and Propose to Make a Record.

Another football team was organized in Chester last night. The members of the club are nearly all from the lower end of town, and faithful practice has already been commenced. Members of the teams say they are interested in the game, but are tired of backing up such a doubtful proposition as the present team has proved to be. They claim there are many weak points in the team which has represented Chester so far this season, and they hope to improve upon the present lineup.

This is the way the new team will play: Left end, McBee; left tackle, Conklin; left guard, Byland; center, McCullough; right guard, Jackson, right tackle, Marshall; right end, Newman; quarterback, Allison; left half, Shecker; right half, Johnston; fullback, Piper; sub, Fodree; coach, Cunningham.

## WEST ACQUITTED

The Man Who Shot Marsh Hobbs at New Cumberland Goes Free.

At New Cumberland yesterday afternoon the jury in the case of West Virginia vs. Samuel West, charged with shooting Marsh Hobbs, who was found with West's wife, returned a verdict of not guilty. The jury was out less than a minute when it returned with a verdict of acquittal.

## Diphtheria Quarantine.

A little daughter of Mr. and Mrs. J. B. Mallin, residing in the upper end of Chester, is afflicted with diphtheria. The case was in charge of Dr. F. F. Davis of East Liverpool, and as soon as it could be positively pronounced diphtheria Dr. Beaumont of New Cumberland, president of the county board of health, was notified. The quarantine was established yesterday and will be rigidly maintained to prevent a spread of the dread disease.

## Street Cleaning Demanded.

Engineer Kelly was in Chester this morning and again reminded Freshwater Bros. that the streets were in bad condition and should be cleaned. A request was made some time ago, and it is said the contractors attempted to clean the sand from the paved streets, but the work did not meet with the approval of the engineer. He ordered them to go over it again, but the order has never been complied with. The streets are in bad shape, and as the Freshwaters' contract calls for the cleaning of sand from all streets they paved, it is probable the engineer will enforce compliance without delay.

## Suffering Greatly.

James Mays, one of the best known and most highly respected employees of the Rock Springs railway, is confined to his home in the upper end of town suffering from an abscess in the head. Mr. Mays is suffering terribly and the attending physician states the trouble may terminate in brain fever.

## CHESTER NOTES.

## AT THE THEATER

This evening will be a real old fashioned Vermont night at the opera house. There will be the old sweet songs of half a century ago; the pretty New England home life; the old time Thanksgiving dinner; the sparkling wit of a typical Yankee constable; the maple sugar camp and the entrancing snow storm, such as can only be found up in the mountains of Vermont, and a sweet story of love which has made "Way Down East" so famous. Watch for something "all bound round with a woolen string." Watch for the comical display of white stockings through the rungs of a chair. The advance sale has been enormous. The seats will all be taken. It will be a big house and a big night.

"A Life's Mistake" comes to the Grand Wednesday evening and will offer us the first opportunity of seeing in play form this most successful of the many books of this most popular of fiction writers. As a play it is domestic in its tone, and yet many of its

scenes are highly wrought up, and dramatic, yet free from all that kind of clap trap sensationalism attendant upon the melodrama. It is a heart story deftly told, a play of the home and life as it exists.

Lovers of the strenuous in melodrama are promised a treat on Thursday night when the "Heart of the Ozarks" will be produced at the Grand. Perhaps no other American play contains as many thrillers, ranging from a realistic bank robbery and an attempt to wreck a train, to a pitched battle. Incident in the career of Younger Brothers form the basis of the play.

Plays whose prominent features are love, heart interest, heroism, comedy, pathos, vice and virtue, always find popular favor. They are sought after by theatre-goers who appreciate real merit. That is why "The Convict's Daughter," an original melodrama, booked at the Grand Saturday night, has met with such brilliant success.

## THE OLD RELIABLE

A UTAH RESIDENT  
ON THE MORMONS

Says the Saints Are Misrepresented  
And Desire Only to Be  
Let Alone.

Ross Rex, of Salt Lake City, Utah, is the guest of his brother, Dr. Park Rex, in Wellsville. Mr. Rex is a member of the famous Fifty-second Ohio Volunteer Infantry association, the regiment in the civil war known as the "blood lappers," who fought fiercely at times to avenge the death of their famous fighting colonel, Alex McCook, of Steubenville.

Mr. Rex was alongside of ex-Sheriff T. H. Montgomery, of Toronto, when that gentleman, known also for his bravery and fighting qualities, received a wound which caused him the loss of an arm. It happened in a brief engagement after the battle of Kennesaw Mountain, when they were ordered, to advance against the enemy and a sharp conflict ensued.

In speaking of the fight against U. S. Senator Smoot, of Utah, Mr. Rex says that Smoot cannot be ousted. He is satisfactory to the majority of the people of Utah. He is progressive, a man of liberal ideas and an honor to his state. The Mormons and the Gentiles so called mix socially and in business matters; there is no particular clash against each other except along religious lines. He says the Mormons are much misrepresented, and that stories of Utah's past are largely circulated in the east much to the state's detriment. There is a different class of people populating the state since those dark and bloody times, and they are just as enlightened and progressive residents and more so than are found in many of the eastern states. If orators, he states, would pay more attention to the bigamists of the east, and let Utah finally solve the problem of polygamy itself, they would not retard the growth and enlightenment that is surely coming.

Speaking of improvements in the beautiful city of Salt Lake he says 400 business houses and residences were erected last year, and that the growth and improvement is still progressing quite steadily. U. S. Senator William Clark, of Montana, is building a railway from Salt Lake to Los Angeles. Senator Moffat is also constructing another line from Denver to Salt Lake. The principal industries of the state are mining and wool growing; the former \$80,000 of gold bullion is put on the market daily, and there is still big growing developments in

mining all over the state. In the latter, the increase is wonderful. The shipments of wool nearly all come east, but there is a steady increase of manufacturing building up in the state that consumes quite a share of the clips. Mr. Rex is an enthusiastic admirer of the state. All they want is to be let alone, and let the general public watch them thrive and grow.

PECULIAR FEATURE  
OF THE SHOOTING

Detective Moore And His Assailant  
Each Used the Same Sort  
of Weapon.

A peculiar feature of the fatal shooting affray between Detective Joseph Moore and the dead negro Ruddis was the fact that both used the same kind of revolvers, Iver Johnson, of 38-caliber, and hammerless, says Will Moore, son of the detective. Moore and the negro exchanged three shots apiece, says Agent Grimm, of the Beaver station. The latter stood motionless fearful to move while the guns flashed their deadly fire, for fear of being hit in the rapid exchange of shots.

The ball extracted from Moore is 38-caliber and of the same make as his own, showing clearly that Moore's revolver did the fatal work. A post-mortem was held on the body of the negro yesterday, but the bullet which caused his death was not found, and will not be unless wanted by the authorities.

The post mortem developed that the negro was fatally wounded in the left side and died from internal hemorrhages.

## ON MORMONISM

An Interesting Lecture to a Crowded  
House Delivered By  
Mrs. Devore.

Mrs. Mary C. Devore was greeted at the United Presbyterian church last night with an audience that completely filled that edifice. She is an educated lady and a pleasing speaker.

The pulpit was decorated with an old, tattered and torn U. S. flag, almost in shreds, that was placed over her school house door in Utah. She said four years ago she had been sent among the Mormons by the National Presbyterian board of home missions. She organized a school, having about 25 scholars. During the McKinley campaign of 1900 she placed the flag above the school house door. An old Mormon in passing told her not to put up the dirty, old flag. She said it was the flag of her country. The argument became heated and a mob gathered and tore it down and into shreds. This is the flag she exhibited last night, which she secured and patched up for exhibition.

The Mormons say the flag is one of oppression. They threatened to shoot her for daring to raise it above the school house door.

Mormons, she says, take an oath of fearful and hair-raising character to do all they can against it. They also re-take the oath at stated periods. Smoot, United States senator from Utah, has often taken the oath, she

alleges, and therefore is not entitled to a seat in the United States senate. She avers that polygamy is still practiced. It is hard to bring offenders to justice, as courts are all in the hands of Mormons.

## Schaffer Sells Out.

Harvey Schaffer has sold his interest in the fine new business block and property located on Main street, near Eighteenth, to Clayton Aughinbaugh. The consideration was between \$3,200 and \$3,500. The block is almost complete, and will make a fine addition to the business houses now located near Eighteenth street.

## Fire Department Entertainment.

Chief A. W. Phillips, of the Wellsville fire department, is arranging with H. R. Johnson, of Chicago, for an entertainment. A picture of the fire department, including the West Side company, will be taken in action tomorrow. The funds raised from the entertainment will be used in purchasing paraphernalia for the department.

## This Hen a High Flyer.

Daniel McBane, of Glasgow, was in town yesterday afternoon and says he observed a neighboring farmer trying to rescue a hen and her brood of little chicks from the top of a big straw stack in a field when the hen had raised her little family. The hen is of elevated stock, and must be more than thoroughbred.

## Detective Moore Improving.

William Moore, son of Detective Joseph Moore, returned to Canton last evening. He is employed in the sheet mill at the Stark Rolling Mill company's works. Elmer Moore, of Wellsville, visited his father at New Brighton yesterday afternoon, and says he will be able to leave the hospital shortly.

## Boiler By Express.

A big boiler from a Pittsburg firm arrived by express from that city last night on the C. & P. in a special car, and the work of putting it in place will begin immediately at the power house of the water works department. The express charges, however, will be about as large as the boiler.

## Work on the Streets.

Street Commissioner A. C. Culp and force are doing considerable grading on Lincoln and Maple avenues, near Kelly avenue. There is still some paving to be finished by Contractor Rinehart on Clark avenue, near Kelly. The paved streets in general are badly in need of a thorough cleaning up.

## Twelve Applicants Examined.

The board of public safety examined four more applicants for police positions last night, making 12 now altogether. They adjourned to meet next Monday night, and in the mean time a number of new applications will probably be filed.

QUESTION OF PAVING  
ON FIFTH STREET

Matter Will Be Considered at a Special Meeting of Council  
Tonight.

A special meeting of the Chester council has been arranged for this evening, and it is understood the question of the paving of Fifth street will be up for consideration. There is no doubt that the council will act favorably upon the petition.

It is announced that the people there are very much in favor of the improvement, and that fully 95 per cent of the foot frontage has been signed up. There is no money in the treasury to pay for paving, and it has not yet been decided what course to pursue in raising the amount. There are two ways open to the interested ones—either a call for an election to vote on a bond issue, or allow the property owners who are benefited by the improvement to advance the money and carry the debt until the assessments are all collected.

There will be no opposition to the improvement on the part of the citizens, as it is considered one of the crying needs of the town. When the new Presbyterian church at Fifth street and Indiana avenue is completed the former thoroughfare will be one of the most prominent in the city. The new residence being erected by James Murray is also taken into consideration, and since it is to be one of the most valuable properties in the town, it will be absolutely necessary to have some convenient and clean way of getting to and from the premises.

## KEEPING THE DRILL GOING

## ANOTHER FOOTBALL TEAM

Members Have Begun Faithful Practice and Propose to Make a Record.

Another football team was organized in Chester last night. The members of the club are nearly all from the lower end of town, and faithful practice has already been commenced. Members of the teams say they are interested in the game, but are tired of backing up such a doubtful proposition as the present team has proved to be. They claim there are many weak points in the team which has represented Chester so far this season, and they hope to improve upon the present lineup.

This is the way the new team will play: Left end, McBee; left tackle, Conklin; left guard, Byland; center, McCullough; right guard, Jackson; right tackle, Marshall; right end, Newman; quarterback, Allison; left half, Sheekler; right half, Johnston; fullback, Piper; sub, Fodree; coach, Cunningham.

## WEST ACQUIRED

The Man Who Shot Marsh Hobbs at  
New Cumberland  
Goes Free.

At New Cumberland yesterday afternoon the jury in the case of West Virginia vs. Samuel West, charged with shooting Marsh Hobbs, who was found with West's wife, returned a verdict of not guilty. The jury was out less than a minute when it returned with a verdict of acquittal.

## Diphtheria Quarantine.

A little daughter of Mr. and Mrs. J. B. Malin, residing in the upper end of Chester, is afflicted with diphtheria. The case was in charge of Dr. F. F. Davis of East Liverpool, and as soon as it could be positively pronounced diphtheria Dr. Beaumont of New Cumberland, president of the county board of health, was notified. The quarantine was established yesterday and will be rigidly maintained to prevent a spread of the dread disease.

## Street Cleaning Demanded.

Engineer Kelly was in Chester this morning and again reminded Freshwater Bros. that the streets were in bad condition and should be cleaned. A request was made some time ago, and it is said the contractors attempted to clean the sand from the paved streets, but the work did not meet with the approval of the engineer. He ordered them to go over it again, but the order has never been complied with. The streets are in bad shape, and as the Freshwaters' contract calls for the cleaning of sand from all streets they paved, it is probable the engineer will enforce compliance without delay.

The argument became heated and a mob gathered and tore it down and into shreds. This is the flag she exhibited last night, which she secured and patched up for exhibition.

The Mormons say the flag is one of oppression. They threatened to shoot her for daring to raise it above the school house door.

Mormons, she says, take an oath of fearful and hair-raising character to do all they can against it. They also retake the oath at stated periods. Smoot, United States senator from Utah, has often taken the oath, she

alleges, and therefore is not entitled to a seat in the United States senate. She avers that polygamy is still practiced. It is hard to bring offenders to justice, as courts are all in the hands of Mormons.

Schaffer Sells Out.  
Harvey Schaffer has sold his interest in the fine new business block and property located on Main street, near Eighteenth, to Clayton Aughinbaugh. The consideration was between \$3,200 and \$3,500. The block is almost complete, and will make a fine addition to the business houses now located near Eighteenth street.

Fire Department Entertainment.  
Chief A. W. Phillips, of the Wellsville fire department, is arranging with H. R. Johnson, of Chicago, for an entertainment. A picture of the fire department, including the West Side company, will be taken in action tomorrow. The funds raised from the entertainment will be used in purchasing paraphernalia for the department.

This Hen a High Flyer.  
Daniel McBane, of Glasgow, was in town yesterday afternoon and says he observed a neighboring farmer trying to rescue a hen and her brood of little chicks from the top of a big straw stack in a field when the hen had raised her little family. The hen is of elevated stock, and must be more than thoroughbred.

Boiler By Express.  
A big boiler from a Pittsburg firm arrived by express from that city last night on the C. & P. in a special car, and the work of putting it in place will begin immediately at the power house of the water works department. The express charges, however, will be about as large as the boiler.

Work on the Streets.  
Street Commissioner A. C. Culp and force are doing considerable grading on Lincoln and Maple avenues, near Kelly avenue. There is still some paving to be finished by Contractor Rinehart on Clark avenue, near Kelly. The paved streets in general are badly in need of a thorough cleaning up.

Twelve Applicants Examined.  
The board of public safety examined four more applicants for police positions last night, making 12 now altogether. They adjourned to meet next Monday night, and in the mean time a number of new applications will probably be filed.

QUESTION OF PAVING  
ON FIFTH STREET

Matter Will Be Considered at a Special Meeting of Council Tonight.

A special meeting of the Chester council has been arranged for this evening, and it is understood the question of the paving of Fifth street will be up for consideration. There is no doubt that the council will act favorably upon the petition.

It is announced that the people there are very much in favor of the improvement, and that fully 95 per cent of the foot frontage has been signed up. There is no money in the treasury to pay for paving, and it has not yet been decided what course to pursue in raising the amount. There are two ways open to the interested ones—either a call for an election to vote on a bond issue, or allow the property owners who are benefited by the improvement to advance the money and carry the debt until the assessments are all collected.

There will be no opposition to the improvement on the part of the citizens, as it is considered one of the crying needs of the town. When the new Presbyterian church at Fifth street and Indiana avenue is completed the former thoroughfare will be one of the most prominent in the city. The new residence being erected by James Murray is also taken into consideration, and since it is to be one of the most valuable properties in the town, it will be absolutely necessary to have some convenient and clear way of getting to and from the premises.

## KEEPING THE DRILL GOING

Operations Started on the Hadley Farm Well Near Chester Today.

Drilling was started on the Hadley farm, near Chester, this morning by John Webster and his associates. The work was delayed for several days after the apparatus had been placed in position. ## ANOTHER FOOTBALL TEAM

Members Have Begun Faithful Practice and Propose to Make a Record.

Another football team was organized in Chester last night. The members of the club are nearly all from the lower end of town, and faithful practice has already been commenced. Members of the teams say they are interested in the game, but are tired of backing up such a doubtful proposition as the present team has proved to be. They claim there are many weak points in the team which has represented Chester so far this season, and they hope to improve upon the present lineup.

This is the way the new team will play: Left end, McBee; left tackle, Conklin; left guard, Byland; center, McCullough; right guard, Jackson; right tackle, Marshall; right end, Newman; quarterback, Allison; left half, Sheekler; right half, Johnston; fullback, Piper; sub., Fodree; coach, Cunningham.

## WEST ACQUITED

The Man Who Shot Marsh Hobbs at New Cumberland Goes Free.

At New Cumberland yesterday afternoon the jury in the case of West Virginia vs. Samuel West, charged with shooting Marsh Hobbs, who was found with West's wife, returned a verdict of not guilty. The jury was out less than a minute when it returned with a verdict of acquittal.

## Diphtheria Quarantine.

A little daughter of Mr. and Mrs. J. B. Malin, residing in the upper end of Chester, is afflicted with diphtheria. The case was in charge of Dr. F. F. Davis of East Liverpool, and as soon as it could be positively pronounced diphtheria Dr. Beaumont of New Cumberland, president of the county board of health, was notified. The quarantine was established yesterday and will be rigidly maintained to prevent a spread of the dread disease.

## Street Cleaning Demanded.

Engineer Kelly was in Chester this morning and again reminded Freshwater Bros. that the streets were in bad condition and should be cleaned. A request was made some time ago, and it is said the contractors attempted to clean the sand from the paved streets, but the work did not meet with the approval of the engineer. He ordered them to go over it again, but the order has never been complied with. The streets are in bad shape, and as the Freshwaters' contract calls for the cleaning of sand from all streets they paved, it is probable the engineer will enforce compliance without delay.

## Suffering Greatly.

James Mays, one of the best known and most highly respected employees of the Rock Springs railway, is confined to his home in the upper end of town suffering from an abscess in the head. Mr. Mays is suffering terribly and the attending physician states the trouble may terminate in brain fever.

## AT THE THEATER

This evening will be a real old fashioned Vermont night at the opera house. There will be the old sweet songs of half a century ago; the pretty New England home life; the old time Thanksgiving dinner; the sparkling wit of a typical Yankee constable; the maple sugar camp and the entrancing snow storm, such as can only be found up in the mountains of Vermont, and a sweet story of love which has made "Way Down East" so famous. Watch for something "all bound round with a woolen string." Watch for the comical display of white stockings through the rungs of a chair. The advance sale has been enormous. The seats will all be taken. It will be a big house and a big night.

"A Life's Mistake" comes to the Grand Wednesday evening and will offer us the first opportunity of seeing in play form this most successful of the many books of this most popular of fiction writers. As a play it is domestic in its tone, and yet many of its

scenes are highly wrought up, and dramatic, yet free from all that kind of clap trap sensationalism attendant upon the melodrama. It is a heart story deftly told, a play of the home and life as it exists.

Lovers of the strenuous in melodrama are promised a treat on Thursday night when the "Heart of the Ozarks" will be produced at the Grand. Perhaps no other American play contains as many thrillers, ranging from a realistic bank robbery and an attempt to wreck a train, to a pitched battle. Incident in the career of Younger Brothers form the basis of the play.

Plays whose prominent features are love, heart interest, heroism, comedy, pathos, vice and virtue, always find popular favor. They are sought after by theatregoers who appreciate real merit. That is why "The Convict's Daughter," an original melodrama, booked at the Grand Saturday night, has met with such brilliant success.

## MESSAGE DELIVERED

**Extraordinary Session of Congress Called to Consider Special Legislation.**

**CUBA'S PROOF OF GOOD FAITH**

**Commercial Treaty Must Be Made Operative—Naval Stations of Utmost Importance from Military Standpoint—Great Market Secured.**

Washington, Nov. 10.—Following is the message of President Roosevelt to the extraordinary session of the Fifty-eighth congress:

To the Senate and House of Representatives:

I have convened the congress that it may consider the legislation necessary to put into operation the commercial treaty with Cuba, which was ratified by the senate at its last session, and subsequently by the Cuban government. I deem such legislation demanded not only by our interest, but by our honor. We cannot with propriety abandon the course upon which we have so wisely embarked. When the acceptance of the Platt amendment was required from Cuba by the action of the congress of the United States, this government thereby definitely committed itself to the policy of treating Cuba as occupying a unique position as regards this country. It was provided that when the island became a free and independent republic she should stand in such close relations with us as in certain respects to come within our system of international policy; and it necessarily followed that she must also to a certain degree become included within the lines of our economic policy. Situated as Cuba is it would not be possible for this country to permit the strategic abuse of the island by any foreign military power. It is for this reason that certain limitations have been imposed upon her financial policy and that naval stations have been conceded by her to the United States. The negotiations as to the details of these naval stations are on the eve of completion. They are so situated as to prevent any idea that there is the intention ever to use them against Cuba, or otherwise than for the protection of Cuba from the assaults of foreign foes and for the better safeguarding of American interests in the waters south of us.

**Military and Economic Interests.**

These interests have been largely increased by the consequence of the war with Spain and will be still further increased by the building of the isthmian canal. They are both military and economic. The granting to us by Cuba of the naval stations above alluded to is of the utmost importance from a military standpoint and is proof of the good faith with which Cuba is treating us. Cuba has made great progress since her independence was established. She has advanced steadily in every way. She already stands high among her sister republics of the new world. She is loyally observing her obligations to us, and she is entitled to like treatment by us.

The treaty submitted to you for approval secures to the United States economic advantages as great as those given to Cuba. Not an American interest is sacrificed. By the treaty a large Cuban market is secured to our producers. It is a market which lies at our doors, which is already large, which is capable of great expansion, and which is especially important to the development of our export trade. It would be indeed shortsighted for us to refuse to take advantage of such an opportunity, and to force Cuba into making arrangements with other countries to our disadvantage.

This reciprocity treaty stands by itself. It is demanded on considerations of broad national policy as well as by our economic interest. It will do harm to no industry. It will benefit many industries. It is in the interest of our people as a whole, both because of its importance from the broad standpoint of international policy, and because economically it intimately concerns us to develop and secure the rich Cuban market for our farmers, artisans, merchants and manufacturers.

**Quaranty of Our Good Faith.**

Finally, it is desirable as a guaranty of the good faith of our nation towards her young sister republic to the south, whose welfare must ever be closely bound with ours. We gave her liberty. We are knit to her by the memories of the blood and the courage of our soldiers who fought for her in war; by the memories of the wisdom and integrity of our administrators who served her in peace and who started her so well on the difficult path of self-government. We must help her onward and upward; and in helping her we must help ourselves.

The foregoing considerations caused the negotiations of the treaty with Cuba and its ratification by the senate. They now with equal force support the legislation by the congress which by the terms of the treaty is necessary to render it operative. A failure to enact such legislation would come perilously near repudiation of the pledged faith of the nation.

I transmit herewith the treaty as amended by the senate and ratified by the Cuban government.

THEODORE ROOSEVELT.  
White House, Nov. 10, 1903.

## WHEN MARK HANNA ENTERED POLITICS

It Was at the Early Age of Seven, at His Boyhood Home in Lisbon.

When M. A. Hanna was 7 years old he became a politician, so it will be seen that the United States senator, now urged by his friends to declare himself a candidate for the Republican nomination for the presidency, imbibed the science of politics with his A B C's.

"I carried a flag in the presidential campaign of 1844," said Mr. Hanna. "Henry Clay was running for president and my father was an enthusiastic Clay man. We were living in New Lisbon, where I was born. Father kept a store and took active part in the campaign. My mother made me a flag out of red, white and blue gingham. I would give a great deal for that flag now. I can still see it, every star and stripe. It required a lot of work and patience to make it. A man working for father was as enthusiastic for Clay as was he. When the flag was finished this man took a pot and brush he used for marking boxes and printed the words, 'Clay and Frelinghuysen,' in the center of the flag. I watched him while he was doing it, and the event is so clear in my mind that I can distinctly recall the formation of every letter. Proud! I should say so. I was the proudest little fellow in New Lisbon, and I carried that banner until it went down to defeat."

Why can't we come over to your house and play any more?

Because papa gets so mad when we make a little bit of noise.

What makes him that way?

Mamma says it's dyspepsia makes him act so crazy.

That's about the way it strikes the small boy. The dyspeptic has no idea of his own unreasonableness or harshness. Little things are magnified and seem to justify his quick anger.

There's health for the dyspeptic and happiness for the family by the use of Doctor Pierce's Golden Medical Discovery.

It cures diseases of the stomach and other organs of digestion and nutrition, and restores perfect health and strength, by enabling the perfect digestion and assimilation of food.

"I have taken one bottle of Dr. Pierce's Golden Medical Discovery for indigestion and liver complaint," writes Mr. C. M. Wilson, of Yankin College, Davidson Co., N. C. "I have had no bad spells since I commenced taking your medicine—in fact, have not felt like the same man. Before I took the 'Golden Medical Discovery' I could not eat anything without awful distress, but now I can eat anything I wish without having unpleasant feelings."

Dr. Pierce's Pleasant Pellets cleanse and regulate the bowels.

## MESSAGE DELIVERED

**Extraordinary Session of Congress Called to Consider Special Legislation.**

### CUBA'S PROOF OF GOOD FAITH

**Commercial Treaty Must Be Made Operative—Naval Stations of Utmost Importance from Military Standpoint—Great Market Secured.**

Washington, Nov. 10.—Following is the message of President Roosevelt to the extraordinary session of the Fifty-eighth congress:

To the Senate and House of Representatives:

I have convened the congress that it may consider the legislation necessary to put into operation the commercial treaty with Cuba, which was ratified by the senate at its last session, and subsequently by the Cuban government. I deem such legislation demanded not only by our interest, but by our honor. We cannot with propriety abandon the course upon which we have so wisely embarked. When the acceptance of the Platt amendment was required from Cuba by the action of the congress of the United States, this government thereby definitely committed itself to the policy of treating Cuba as occupying a unique position as regards this country. It was provided that when the island became a free and independent republic she should stand in such close relations with us as in certain respects to come within our system of international policy; and it necessarily followed that she must also to a certain degree become included within the lines of our economic policy. Situated as Cuba is it would not be possible for this country to permit the strategic abuse of the island by any foreign military power. It is for this reason that certain limitations have been imposed upon her financial policy and that naval stations have been conceded by her to the United States. The negotiations as to the details of these naval stations are on the eve of completion. They are so situated as to prevent any idea that there is the intention ever to use them against Cuba, or otherwise than for the protection of Cuba from the assaults of foreign foes and for the better safeguarding of American interests in the waters south of us.

### Military and Economic Interests.

These interests have been largely increased by the consequence of the war with Spain and will be still further increased by the building of the isthmian canal. They are both military and economic. The granting to us by Cuba of the naval stations above alluded to is of the utmost importance from a military standpoint and is proof of the good faith with which Cuba is treating us. Cuba has made great progress since her independence was established. She has advanced steadily in every way. She already stands high among her sister republics of the new world. She is loyally observing her obligations to us, and she is entitled to like treatment by us.

The treaty submitted to you for approval secures to the United States economic advantages as great as those given to Cuba. Not an American interest is sacrificed. By the treaty a large Cuban market is secured to our producers. It is a market which lies at our doors, which is already large, which is capable of great expansion, and which is especially important to the development of our export trade. It would be indeed shortsighted for us to refuse to take advantage of such an opportunity, and to force Cuba into making arrangements with other countries to our disadvantage.

This reciprocity treaty stands by itself. It is demanded on considerations of broad national policy as well as by our economic interest. It will do harm to no industry. It will benefit many industries. It is in the interest of our people as a whole, both because of its importance from the broad standpoint of international policy, and because economically it intimately concerns us to develop and secure the rich Cuban market for our farmers, artisans, merchants and manufacturers.

### Guaranty of Our Good Faith.

Finally, it is desirable as a guaranty of the good faith of our nation towards her young sister republic to the south, whose welfare must ever be closely bound with ours. We gave her liberty. We are knit to her by the memories of the blood and the courage of our soldiers who fought for her in war; by the memories of the wisdom and integrity of our administrators who served her so well on the difficult path of self-government. We must help her onward and upward; and in helping her we must help ourselves.

The foregoing considerations caused the negotiations of the treaty with Cuba and its ratification by the senate. They now with equal force support the legislation by the congress which by the terms of the treaty is necessary to render it operative. A failure to enact such legislation would come perilously near repudiation of the pledged faith of the nation.

I transmit herewith the treaty as amended by the senate and ratified by the Cuban government.

THEODORE ROOSEVELT.

## WHEN MARK HANNA ENTERED POLITICS

It Was at the Early Age of Seven, at His Boyhood Home in Lisbon.

When M. A. Hanna was 7 years old he became a politician, so it will be seen that the United States senator, now urged by his friends to declare himself a candidate for the Republican nomination for the presidency, imbibed the science of politics with his A B C's.

"I carried a flag in the presidential campaign of 1844," said Mr. Hanna. "Henry Clay was running for president and my father was an enthusiastic Clay man. We were living in New Lisbon, where I was born. Father kept a store and took active part in the campaign. My mother made me a flag out of red, white and blue gingham. I would give a great deal for that flag now I can still see it, every star and stripe. It required a lot of work and patience to make it. A man working for father was as enthusiastic for Clay as was he. When the flag was finished this man took a pot and brush he used for marking boxes and printed the words, 'Clay and Frelinghuysen,' in the center of the flag. I watched him while he was doing it, and the event is so clear in my mind that I can distinctly recall the formation of every letter. Proud! I should say so. I was the proudest little fellow in New Lisbon, and I carried that banner until it went down to defeat."

## COUNTY AND NEIGHBORHOOD

The big Shenango tin mill at New Castle has resumed.

The corner stone of the Memorial Presbyterian church at Youngstown was laid with elaborate ceremonies.

The corner stone of the new M. P. church at Beaver Falls was laid on Sunday with noted visitors present.

John Galey, of Beaver, won the prize for the finest chrysanthemums at the Pittsburgh Horticultural society exhibition.

On account of another threatened smallpox invasion, the school board of Steubenville has decided to enforce compulsory vaccination.

Local capitalists will install a flint mill near East Palestine. The plant will be quite an addition in the line of pottery and quite an essential one.

Carey M. Roberts, a well known traveling salesman, was found dead in bed at Steubenville, having died of neuralgia of the heart. He was 45 years of age, and his home was in Canton.

## What a grand family medicine it is, grand-Ayer's Sarsaparilla.

Carelessness in handling powder caused a terrible explosion and Edward Moore and his wife were killed near Mt. Pleasant. A funnel that had been used in handling powder was thrown in the fire.

For months, outlaws have been carrying on all kinds of depredations in Long Run, their work being directed against the home of Mrs. Laura Ann Old, a widow, who has one child. They wound up by burning her house.

### Authorized to Adopt.

Lisbon, November 10.—(Special.)—Ernest J. and Lillian Gertrude Groves, of Salem, have been authorized to adopt as their daughter Cora Esther Haggerty, the two-year-old child of Hugh and Isabella Haggerty. The father is said to be dissolute and to have abandoned his family.

Always in the lead—the News Review.

### Resigned as Executor.

Lisbon, November 10.—(Special.)—J. M. Dickinson, of Lisbon, has qualified as executor of the estate of Geo. V. Farmer, Elkrum, township. Bond, \$3,500. Appraisers, Thomas Walters, Henry Klein and C. B. Armstrong.

**Grooms-Stine.**  
A pretty wedding was solemnized last evening at 8 o'clock when Rev. Dr. M. B. Pratt, at the parsonage of the First M. E. church, united Miss Zuleta Grooms and Albert M. Stine. The solemn and impressive ceremony of the Methodist church was used. The couple was attended by Mrs. S. L. Broome, Pearl Broome, Miss Lula Hall, Charles Stine, Robert A. Dougherty and Letta Cline, all relatives and friends. Awaiting the wedding party at the parsonage gate was a large number of friends, who showered the bride and groom with rice. Mr. and Mrs. Stine are well known and liked among a large number of friends, who extend heartiest congratulations.

**The Boys' Dance.**  
A number of the prominent young men of the city are forming a club to be known as "The Boys," will give a dance and reception at Rock Springs park on the evening of November 24. The "boys" were formerly members of the High School Boys' club, having once been students in the high school. The dance will be entertaining and one of the leading functions of the social season. There will be a large number of invitations issued during the next few days, and the music will be furnished by McGraw's orchestra.

**Bentz-Rile.**  
Miss Mary Bentz and James Rile, two prominent young people of this city, were married Saturday evening at the parsonage of the First M. E. church, Rev. Dr. M. B. Pratt, officiating. The couple was attended by several very near friends. After the ceremony and congratulations the young people repaired to No. 434 Calcutta street, the future home of Mr. and Mrs. Rile, where an informal reception was held. The many friends are congratulating them today.

**Box Social Tonight.**  
The Girls' Friendly society of St. Stephen's church will hold a box social in the parish building this evening and it is expected a most enjoyable time will be had. An extensive program has been prepared which will be carried out prior to the serving of refreshments. With each box to be given out will be a valuable handkerchief.

**Rummage Sale Reports Gratifying.**  
A business meeting of the Young Ladies' Missionary society of the First Presbyterian church was held last evening. The successful work of the ladies' rummage sale conducted by the society and financial business were the chief topics of discussion.

**Missionary Meeting.**  
The members of the missionary society of St. Stephen's church will meet on Wednesday afternoon at 2:30 o'clock. The business of the meeting will require considerable attention and all members are urged to be present.

## FATAL SHOOTING AFFRAY.

Two Dead and Two Wounded at Opera House Entrance.

Wallace, Ida., Nov. 10.—Two dead and two wounded is the result of a shooting affray at the entrance of the Wallace opera house just as the theatergoers were leaving, following a performance by the James O'Neil company.

The dead: Dr. William Fins, shot through head; William Cuff, miner, shot three times.  
Wounded: Chief of Police McGovern, shot through right hand; Theater Policeman Rose, shot in leg.  
The trouble arose over Cuff insisting on smoking a cigar in the gallery.

## Power from Ohio River.

Cincinnati, Nov. 10.—Leading electricians from all parts of the country were in conference over the proposition to utilize the falls in the Ohio river at Louisville for power for traction, electric light and other plants throughout Indiana, Kentucky and Ohio. The Weidner-Elkins syndicate, which controls the traction lines in Cincinnati, Indianapolis and other parts of Ohio and Indiana, have had experts examining into the feasibility of the plan for some time and they have reported favorably. At Louisville the engineers will confer with government engineers before taking the matter up with congress.

## United States Continues to Fish.

Marquette, Mich., Nov. 10.—A bill of complaint prepared by United States District Attorney Covell was filed in the federal court asking a perpetual injunction to restrain Game Warden Chapman and all other state authorities from interfering with United States agents in their fishing on the great lakes during the state's closed season. The United States authorities claim that an act of congress authorizes them to disregard the law, custom or usage of any state in regard to taking fish.

home, and no information of a definite character could be secured concerning anyone by that name. It is now thought the girl may have been coached to give a fictitious name in order to prevent the authorities from finding her in case an investigation was set on foot, and for the better reason that the man who brought her here could more easily carry out his designs.

The grocers, at whose store the girl's trunk was left, and where she was taken by the detective just previous to being sent home, say the young lady was prepossessing in appearance and was apparently ashamed of the part she had played.

## A Very Favorable Report.

The officers of the Potters' Building, Loan and Savings company have just received word from the state authorities relative to the report of the local institution submitted recently. The report was one of the most comprehensive documents of the kind ever laid before the department, and elicited much favorable comment from the state officials. The East Liverpool association is among the best and most substantial in the state, and the report shows it. The department at Columbus expresses its approval in the highest terms, and the local officers and directors are gratified as a result.

## Tobacco Merchants Bankrupt.

Chicago, Nov. 10.—Sutter Brothers, leaf tobacco merchants, with establishments in Havana, New York, St. Louis and Chicago, went into voluntary bankruptcy. On the assertion that the action was taken to protect creditors a receiver was appointed, the Chicago Title and Trust company being named. The liabilities are placed at \$1,500,000, with assets exceeding that figure by \$1,000,000.

## Two More Indictments Against Green.

Binghamton, N. Y., Nov. 10.—Senator George E. Green was arraigned before United States Commissioner Charles S. Hall on two more indictments found against him by the federal grand jury in connection with the postoffice bribery cases. He was held in the sum of \$2,500 in each case and the cases were adjourned until Nov. 20.

Port Said, Egypt, Nov. 10.—The United States gunboat Machias, having on board Consul General Skinner, of Marselles, and the party of marines which is to escort Mr. Skinner to Adis Abeba, capital of Abyssinia, left for Jibuti, French Somaliland, where a caravan for the interior awaits them.

Will Dedicate Ohio Monument. Chattanooga, Nov. 10.—Governor Nash, Lieutenant Governor Harry Gordon, Major W. S. Goodspeed, and party are here to attend the dedication of the Ohio monument, which occurs at noon on Thursday. Four hundred veterans and citizens of Ohio will arrive today to attend the ceremonies.

Injured in Mine Explosion. Butler, Mo., Nov. 10.—Eight men were injured, three perhaps fatally, in a gas explosion in a mine three miles southwest of Foster, in this county. Arthur Duke, Thomas Cobb and a young man named McMahon will probably die. The injuries of the others are slight.

Lively Spanish Elections. Madrid, Nov. 10.—Riots prevailed during the elections in many towns. At Cabolla, in the province of Toledo, the mayor of the town was assassinated, at Sueca two persons were killed, and at Santander the Jesuit college was attacked and one man killed.

### FATAL SHOOTING AFFRAY.

Two Dead and Two Wounded at Opera House Entrance.

Wallace, Ida., Nov. 10.—Two dead and two wounded is the result of a shooting affray at the entrance of the Wallace opera house just as the theatergoers were leaving, following a performance by the James O'Neill company.

The dead: Dr. William Fins, shot through head; William Cuff, miner, shot three times. Wounded: Chief of Police McGovern, shot through right hand; Theater Policeman Rose, shot in leg. The trouble arose over Cuff insisting on smoking a cigar in the gallery.

Power from Ohio River. Cincinnati, Nov. 10.—Leading electricians from all parts of the country were in conference over the proposition to utilize the falls in the Ohio river at Louisville for power for traction, electric light and other plants throughout Indiana, Kentucky and Ohio. The Weidner-Elkins syndicate, which controls the traction lines in Cincinnati, Indianapolis and other parts of Ohio and Indiana, have had experts examining into the feasibility of the plan for some time and they have reported favorably. At Louisville the engineers will confer with government engineers before taking the matter up with congress.

United States Continues to Fish. Marquette, Mich., Nov. 10.—A bill of complaint prepared by United States District Attorney Covell was filed in the federal court asking a perpetual injunction to restrain Game Warden Chapman and all other state authorities from interfering with United States agents in their fishing on the great lakes during the state's closed season. The United States authorities claim that an act of congress authorizes them to disregard the law, custom or usage of any state in regard to taking fish.

## THE PLOT OF A VILLAIN AGAINST A YOUNG GIRL

Continued from First Page.

home, and no information of a definite character could be secured concerning anyone by that name. It is now thought the girl may have been coached to give a fictitious name in order to prevent the authorities from finding her in case an investigation was set on foot, and for the better reason that the man who brought her here could more easily carry out his designs.

The grocers, at whose store the girl's trunk was left, and where she was taken by the detective just previous to being sent home, say the young lady was prepossessing in appearance and was apparently ashamed of the part she had played.

### A Very Favorable Report.

The officers of the Potters Building, Loan and Savings company have just received word from the state authorities relative to the report of the local institution submitted recently. The report was one of the most comprehensive documents of the kind ever laid before the department, and elicited much favorable comment from the state officials. The East Liverpool association is among the best and most substantial in the state, and the report shows it. The department at Columbus expresses its approval in the highest terms, and the local officers and directors are gratified as a result.

Tobacco Merchants Bankrupt. Chicago, Nov. 10.—Sutter Brothers, leaf tobacco merchants, with establishments in Havana, New York, St. Louis and Chicago, went into voluntary bankruptcy. On the assertion that the action was taken to protect creditors a receiver was appointed, the Chicago Title and Trust company being named. The liabilities are placed at \$1,500,000, with assets exceeding that figure by \$1,000,000.

Two More Indictments Against Green. Binghamton, N. Y., Nov. 10.—Senator George E. Green was arraigned before United States Commissioner Charles S. Hall on two more indictments found against him by the federal grand jury in connection with the postoffice bribery cases. He was held in the sum of \$2,500 in each case and the cases were adjourned until Nov. 20.

## SOCIAL EVENTS

**Grooms-Stine.**  
A pretty wedding was solemnized last evening at 8 o'clock when Rev. Dr. M. B. Pratt, at the parsonage of the First M. E. church, united Miss Zuleta Grooms and Albert M. Stine. The solemn and impressive ceremony of the Methodist church was used. The couple was attended by Mrs. S. L. Broome, Pearl Broome, Miss Lula Hall, Charles Stine, Robert A. Dougherty and Letta Cline, all relatives and friends. Awaiting the wedding party at the parsonage gate was a large number of friends, who showered the bride and groom with rice. Mr. and Mrs. Stine are well known and liked among a large number of friends, who extend heartiest congratulations.

**The Boys' Dance.**  
A number of the prominent young men of the city are forming a club to be known as "The Boys," will give a dance and reception at Rock Springs park on the evening of November 24. The "boys" were formerly members of the High School Boys' Club, having once been students in the high school. The dance will be entertaining and one of the leading functions of the social season. There will be a large number of invitations issued during the next few days, and the music will be furnished by McGraw's orchestra.

**Bentz-Rile.**  
Miss Mary Bentz and James Rile, two prominent young people of this city, were married Saturday evening at the parsonage of the First M. E. church, Rev. Dr. M. B. Pratt, officiating. The couple was attended by several very near friends. After the ceremony and congratulations the young people repaired to No. 434 Calcutta street, the future home of Mr. and Mrs. Rile, where an informal reception was held. The many friends are congratulating them today.

**Box Social Tonight.**  
The Girls' Friendly society of St. Stephen's church will hold a box social in the parish building this evening and it is expected a most enjoyable time will be had. An extensive program has been prepared which will be carried out prior to the serving of refreshments. With each box to be given out will be a valuable handkerchief.

**Rummage Sale Reports Gratifying.**  
A business meeting of the Young Ladies' Missionary society of the First Presbyterian church was held last evening. The successful work of the ladies' rummage sale conducted by the society and financial business were the chief topics of discussion.

**Missionary Meeting.**  
The members of the missionary society of St. Stephen's church will meet on Wednesday afternoon at 2:30 o'clock. The business of the meeting will require considerable attention and all members are urged to be present.
